Mayor Suggests Kingston as '60 Site For Women's Annual Competition

Mayor Edwin F. Radel has urged the New York State Women's Bowling Association to select Kingston as the site of its 1960 state tournament.

Macmillan Is Met by Top Reds Will Meet Khrushy Again on Monday

LENINGRAD (AP) — British Prime Minister Harold Macmillan arrived in Leningrad today to find a surprise top-level Soviet delegation waiting to greet him. It was headed by First Dep. Premier Anastas I. Mikoyan and Foreign Minister Andrei Gromyko.

Mikoyan and Gromyko flew to Leningrad from Moscow with British Ambassador Sir Patrick Reilly. Macmillan flew in from Kiev.

No Advance Notice
A British spokesman said Macmillan had no advance notice that Mikoyan was joining him for his two-day visit to Leningrad.

A British official said that Mikoyan had mentioned earlier in the week that he might come to Leningrad but, as in the case of Soviet Premier Khrushchev's trip to Kiev, the British were later told those plans had been dropped.

Khrushchev canceled a trip to Kiev with the British leader, pleading he had to see a dentist about a toothache. That same day he received an Iraqi delegation at the Kremlin, and many observers said Khrushchev had a "diplomatic toothache."

Mikoyan was in a gay mood as he waited on the ramp and greeted Macmillan. Both exchanged friendly remarks before Macmillan went off with Leningrad officials to inspect a brightly uniformed guard of honor.

The appearance of Mikoyan was especially surprising in view of the fact that he implied Friday night that Macmillan was responsible for the chill on British-Soviet talks in Moscow by taking a "tough line" on Germany. He said Macmillan had assumed that position in talks with Khrushchev.

Bail Frees Barbara's Son; Lawyer Hits Police Action

NEW YORK (AP)—Joseph Barbara Jr., 23, whose father played host to the notorious 1957 underworld conference at Apalachin, is free in \$1,500 bail pending a hearing on a five-count perjury indictment.

Young Barbara has been accused of lying to the State Crime Commission when it questioned him last November on why about 60 top gangland figures met at his father's Upstate home. State police broke up the conclave.

The son was brought here Friday after being picked up outside his Apalachin residence.

Puffing on a big cigar, Barbara promptly supplied bail in General Sessions Court, and was released

Here in 1951
The state's women bowlers held their tournament here in 1951 and Mayor Radel noted that he previously made a bid for the 1959 tournament "with a request for this consideration should we be unsuccessful."

The mayor's letter to Mrs. Bayley said in part:
"I reaffirm that desire and offer the following information to your group in making this bid. In and around our city we have several hotels and an abundance of motel accommodations that will be more adequate for your requirements."

"The municipal auditorium is also available as your central meeting headquarters for the breakfast and other activities that require sufficient space for all tournament personnel at one time."

Coffey Is Named To Plumber Board

Appointment of John F. Coffey, of 23 Coffey Place, as a member of the Examining Board of Plumbers was announced today by Mayor Edwin F. Radel.

He succeeded Raymond C. Stadt, whose term expired Dec. 31, 1958. Coffey's term expires Dec. 31, 1961.

Born in this city, Coffey is a graduate of St. Joseph's School, attended St. Ann's Academy in New York City and was graduated from Kingston High School.

His father, Edward Coffey, was engaged in the plumbing business for 44 years, and the new member of the board was associated with him in that business for 25 years. Coffey assumed ownership of the firm eight years ago.

A veteran of World War 2, Coffey served in the Pacific theatre of operations. He is married to the former Emily Smith. They are the parents of three girls and one boy.

Coffey is a member of St. Ignatius Loyola Post 1769, Catholic War Veterans.

Says U. S. Should Recognize 350th H-C Celebration

WASHINGTON (AP)—The United States should recognize this year as the 350th anniversary of Henry Hudson's voyage up the Hudson River and the discovery of Lake Champlain, a Democratic congressman says.

Judge Scores Greed Gets Five Years, \$60,000 Fine for Evading Taxes

TACOMA, Wash. (AP)—Former Teamster Union President Dave Beck received a five year sentence and \$60,000 fine Friday for income tax evasion, plus a double-barreled denunciation from the judge.

"The exposure of Mr. Beck's insatiable greed, resulting in his fall from high place, is a sad and shocking story," said U.S. District Judge George Boldt, in a scathing, 20-minute lecture before passing sentence.

New Trial Denied
Beck quickly posted \$70,961 to cover the fine and court costs and was released. After his conviction Feb. 19, Beck spent a night behind bars for the first time in his life before appeal bond was set.

A motion for a new trial was denied.

The government could claim more than half a million dollars from Beck.

He was charged with evading \$240,607 for the years 1950-53, but the government raised its estimate of the amount actually owed to \$258,636. In addition to the fine and court costs, a 50 per cent fraud penalty of \$129,318 and \$36,996 in interest at 5 per cent brings the total to \$553,911.

Stands Calm, Quiet
Beck, 64, stood calm and quiet, one hand clenched behind his back and the other in a trouser pocket, as the judge began his denunciation.

He refused two invitations to address the court. But later he told reporters, "I am not the first innocent person to be sentenced nor will I be the last."

He said he had authorized his attorneys to push the appeal, filed last week.

Week's Business Review

By WALTER BREEDE, JR.

NEW YORK (AP) — Strike jitters at home, and war jitters in Berlin, gave the economy a forward push this week.

Strong consumer spending contributed to the upturn.

Many key lines showed sensational gains over late February of 1958 when blizzards, storms and a deepening recession held business activity in check.

Steel output, highest in two years, was up a thumping 69 per cent from a year ago.

Auto production, highest in six weeks, showed a 40 per cent increase over 1958, coal production was up 18 per cent, paperboard production up 11 1/2 per cent, coal up 18 per cent, crude oil up 6 per cent and electric power up 7 1/2 per cent.

Freight carloadings scored a gain of 17 1/2 per cent.

You could see evidence of strong consumer buying power in the latest government figures on department store sales, up 24 per cent over the like week last year.

Retail economists were quick to point out that the comparison was with an unusually poor week in 1958. It had one less selling day for many stores (Washington's birthday, which fell on a Sunday).

Also, cold, blustery weather kept many shoppers home.

Be that as it may, the percent-

Tri-State Dairy Unit Disbands Strike Failures Mark 3-Year Run

CHESTER, N. Y. (AP) — The Tri-State Master Dairy Farmers Guild has been disbanded after a stormy three-year existence, it was disclosed today.

Twice the Guild staged milk strikes in an effort to boost prices to dairymen. They were marked by strife and ended in failure.

At one time the organization claimed a membership of 8,000 to 9,000 dairy farmers in New York, New Jersey and Pennsylvania.

May Join Other Group
Those remaining to the end were expected to continue in the Dairy Producers Local 69 of the Teamsters Union. This had been set up in January 1958 when the Guild leadership sought affiliation with the Teamsters.

However, the Guild's second milk strike, staged last September, failed when Teamster Union milk drivers did not support the action.

Charles Cartwright of Milford, Pa., the Guild's executive director, said the Teamsters had promised to lend aid but did not keep the promise.

Robert Watch, president of the Guild's Chester Unit, said today that a conference was held Friday night with Teamster organizer Robert Heseltin and plans were mapped for a statewide membership drive by Local 69.

Core Still Active
From now on, Watch said, the Dairymen's organizational efforts will be strictly a Teamster Union undertaking.

He said it was felt that more could be accomplished under the wing of the Teamsters than as an independent Guild.

Watch said a core of Guild members still is active but gave (Continued on Page 14, Col. 6)

\$40 Million Seen As Budget Slice

GOP Chiefs Agree Slash Is Necessary For Adoption of Rockefeller's Plan

ALBANY, N. Y. (AP) — Gov. Rockefeller, his two-billion-dollar budget scuttled by a Republican rebellion, was challenged by GOP legislative leaders today to chop at least 40 million dollars off his record spending program.

The Republican chiefs, friendly to Rockefeller but concerned by the mounting revolt in their ranks, have settled on 40 million as the price of passage, a source close to Republican leaders told The Associated Press.

18 Balk at Spending
Eighteen Republican assemblymen balked at the GOP governor's \$2,041,000,000 budget and proposed 277-million-dollar tax increase plan. That leaves only 74 possible "aye" votes—two shy of adoption.

Senate approval—by two votes at this stage—would mean nothing unless the Assembly went along. Republicans have big majorities in both houses. The Democratic minority is pledged to vote against the Rockefeller spending plan.

The first big showdown is scheduled for Sunday night, when Assembly Speaker Oswald D. Heck and Senate Majority Leader Walter J. Mahoney meet with Rockefeller.

Heck and Mahoney will be armed with private reports from the Legislature's fiscal committees, which have been working on ways to ease Rockefeller's recommendation for 277 million in new or higher taxes—150 million of it through the income tax.

\$600 Exemption Is Key
The key to the budget battle is Rockefeller's proposal for a uniform \$600 exemption on the income tax.

Now the exemptions are \$1,000 for single persons, \$2,500 for married couples and \$400 for each dependent.

There were reports that GOP fiscal experts were weighing how revenue would be affected under exemptions of \$700 or \$800.

But Republican leaders hoped to keep the \$600 figure because it corresponds with the federal level and would simplify employers' bookkeeping under a projected payroll withholding plan.

Then the leaders plan to see what else they can cut to make up for the difference.

\$40 Million May Appear
A source in close touch with GOP thinking it probably would take a 40-million-dollar cut to appease the rebels' budget-cutters.

At first, Republican leaders had aimed at a 25-million-dollar cut but demands voiced in the revolt mentioned reductions as high as 200 million dollars.

Democratic State Chairman Michael Prendergast commented, after the 17th GOP assemblyman bolted Friday, that it appeared "the people have won a major victory in their revolt against Gov. Rockefeller's 'soak-the-poor' tax program."

Accident or Intentional? Navy Man Says Trawler Could Have Cut Cables

ARGENTIA, Nfld. (AP) — The U.S. naval lieutenant who searched the Novorossisk says the Soviet trawler "probably quite likely" had something to do with breaking transatlantic cables.

But, he emphasizes, "I don't know whether accidentally or intentionally."

Lt. Donald Sheely of Falls Church, Va., told a news conference here Friday night that the Soviets offered no resistance to his boarding party on Thursday and sailed away on being told to leave the Grand Banks area where five cables were broken.

15 Others Sighted
In Sydney, N.S., the Eastern

Telegraph and Telephone Co. said a patrol plane had sighted about 20 trawlers—15 of them Soviet—still operating in the area Friday.

The pilot said the ships "just appear to be fishing."

Rough seas and drifting ice held up repairing of the cables. Two Western Union cables ships are standing by but the weather forecast was gloomy for beginning work for some hours.

The Soviet Communist party newspaper Pravda called the boarding illegal and the official Soviet news agency Tass described it as the "unlawful action of the American naval fleet in the open sea."

Strike Still On Rival Paper Buys St. Louis Globe; Will Print Both

ST. LOUIS (AP)—The evening St. Louis Post-Dispatch will print the editions of its rival morning Globe-Democrat after a Newspaper Guild strike at the Globe is settled, both papers announced Friday.

The Post, owned by the Pulitzer Publishing Co., has bought the Globe-Democrat building and its mechanical equipment. The price was not disclosed. The Globe is owned by S. I. Newhouse, owner of 13 newspapers.

Globe to Move
The Globe will move to another building, not yet chosen.

The Post plans to move its news and business offices and presses into the Globe building as soon as the Globe finds other quarters and the strike is over.

The Post building is newer and more modern but the newspaper has long been cramped. At one time the Post planned to construct a new building on the western edge of St. Louis but abandoned that idea.

It will combine its presses with the best ones in the Globe building and print both papers, becoming in effect a job printer for the Globe.

The two papers are five blocks apart on the same street in downtown St. Louis. In between, a block from the Globe, is the old Star-Times building which is largely unoccupied.

Officials of both papers said each would carry on as a separate unit. The Post-Dispatch issued a statement saying partly:

"The Globe-Democrat remains the property of S. I. Newhouse and both newspapers will retain their separate identities."

The Globe has been closed eight days by a strike of the Guild over a pension plan. Other provisions of a new contract have been agreed on.

The unexpected announcement came late Friday as Globe-Guild negotiators met with a federal conciliator.

The meeting was asked by management.

330 Out on Strike
Immediately after the session ended, Herbert L. Monk, chairman of the strike committee, announced, "The strike is still on. The picket lines will be kept up. All pickets are to report on schedule. The sale will not affect our strike."

Some 330 guildsmen, mostly office and editorial employees, are on strike and their picket lines are being observed by about 700 mechanical workers.

Spring Primary Date Urged by Democrats

NEW YORK (AP) — Three leaders in the fight against Tammany boss Carmine G. DeSapio have asked the governor to block any attempt to set Sept. 15 as the permanent primary date.

The move Friday caused some surprise, because a late primary date, in September rather than June, supposedly would be an advantage to the insurgents trying to topple DeSapio's leadership.

This was acknowledged in the letter, which came from former Sen. Herbert H. Lehman, Mrs. Franklin D. Roosevelt, and former Air Force Secretary Thomas K. Finletter, leaders of the liberal wing of the Democratic party. The letter was addressed to Gov. Rockefeller.

The letter recommended that a permanent spring primary date, not subject to change from year to year, be set by the Legislature. The three said that they had heard with pleasure that the governor had taken a similar position, in favor of a spring primary, and further urged him to veto a bill which would set the date at Sept. 15.

Weekend Launching Is Likely Hopeful Satellite Will Orbit Sun

By THE ASSOCIATED PRESS

CAPE CANAVERAL, Fla. (AP) — The United States, flexing its missile muscles in a spectacular series of firings, is ready to try again to ram a satellite past the moon and into orbit around the sun.

The Army moon-shot appears likely this weekend, although the exact time still is a secret.

Many Preliminaries
Preliminaries in the big weekend space show were:

Launching of a powerful 80-foot Thor-Able rocket early today on a 5,000-mile ICBM nose cone recovery test.

Successful firing of a 28-foot Jupiter missile Friday over a 1,700-mile range to test its tactical ballistic shell, nose cone, engine, warhead and fusing system.

Launching of the Navy's Polaris nuclear submarine rocket Friday. The Navy later said the Polaris may have broken up soon after it disappeared into the clouds, although considerable test data was recorded. Three of four earlier Polaris firings were unsuccessful.

4-Stage Rocket
The Army moon rocket waiting to take the limelight was a four-stage Juno II — a Jupiter surmounted with three successive stages of Sergeant rockets.

Its star role will be to hurl a 13-pound satellite loaded with radiation equipment past the moon to become an artificial planet whirling around the sun.

The first and second stages of the Juno II rocket will be in a spinning bucket to give stability in flight. There will be 11 of the solid fuel Sergeant rockets in the second stage, three in the third. The fourth stage will be one Sergeant rocket to which the little satellite will be attached.

The planes of the earth and moon are now in the best relation — with the moon about 220,000 miles from the earth.

First Went 64,000 Miles
The first Army moon-shot last Dec. 6 climbed 64,000 miles. The Pioneer II rocket fired by the Air Force last Nov. 8 reached 71,000 miles.

The Soviets have claimed they sent a space probe past the moon early this year.

The Thor-Able fired early today shot through the clouds with a brilliant flash at the start of the nose cone recovery test—the fifth of a series. The first four failed.

Rain, Snow Belt Push Off Spring Reminders

By THE ASSOCIATED PRESS

Spotty rainfall and a snow belt, continuing reminders of a topsyturvy winter season, damped the whiff of spring-like weather over much of the nation today.

Fair, mild climes hugged broad areas with the mercury soaring into the 40s and 50s in the North. Another day of sunshine also warmed the outlook in the South, triggering 60 to 80 degree readings.

But a disturbance over the Great Lakes loosed snowfall and freezing rain at some points.

At least 2 inches of fresh snow, dropped in a 6-hour overnight period, blanketed an area from northeastern Minnesota through parts of Wisconsin to northern Michigan.

A rain front dripped from the Great Lakes into Oklahoma.

Shower activity was prevalent along the South Atlantic Coast, Jacksonville, Fla. was sprayed with 1.46 inches Friday.

Light rain also dotted the Pacific Northwest.

New York Motorists to Begin Paying 40 Per Cent Tax on Car Fuel Sunday

NEW YORK—With the two-cent increase in the state gasoline tax going into effect Sunday, New York car owners will begin paying a total tax of nine cents a gallon, the equivalent of more than a 40 per cent "sales tax" on motor fuel.

Russell E. Watson Jr., executive secretary of the New York State Petroleum Council, noted that the two-cent increase in the state gasoline tax rate will cost highway users an estimated \$72 million additional per year, but still without any assurance that the state's highway tax revenues will be used only for highway purposes.

"On the contrary," Watson

said, "analysis of the executive budget estimates for fiscal 1960 has revealed that New York next year will divert \$57 million of its highway revenues to non-highway expenditures — about 80 cents of every \$1 of additional revenue gained through the increase."

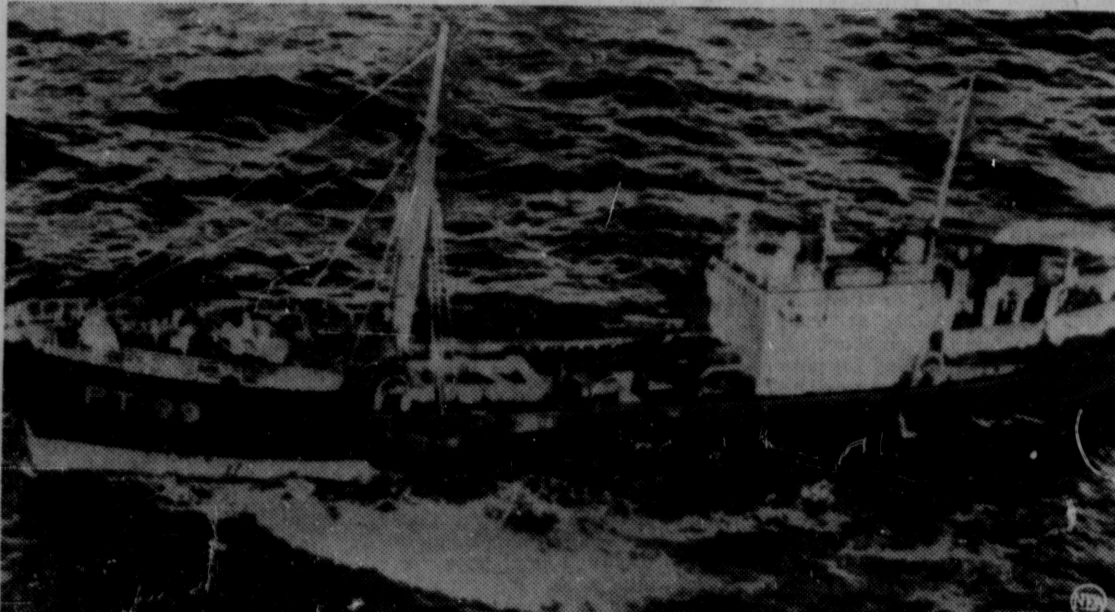

Pointing to the state's "long history of highway fund diversion," Watson noted that figures announced recently by the U. S. Bureau of Public Roads showed New York's diversion figure for 1957 as \$23.7 million. This brought to \$1.1 billion the total amount highway taxpayers here have been "short changed" over a period of years, according to Bureau figures.

With state and federal taxes on gasoline now costing New York highway users nearly \$1 million a day, Watson noted that these revenues now amount to as much in one month as the \$8.5 million New York's original two-cent gas tax yielded in a whole year following its enactment in 1929, although vehicle registrations in the state have little more than doubled since then.

Following is the history of state and federal taxation of gasoline in New York:

1929—State gasoline tax first imposed at 2c a gallon.

1932—Federal tax imposed at (Continued on Page 5, Col. 8)

NEW YORK (AP)—Joseph Barbara Jr., 23, whose father played host to the notorious 1957 underworld conference at Apalachin, is free in \$1,500 bail pending a hearing on a five-count perjury indictment.

Young Barbara has been accused of lying to the State Crime Commission when it questioned him last November on why about 60 top gangland figures met at his father's Upstate home. State police broke up the conclave.

Tri-State Dairy Unit Disbands Strike Failures Mark 3-Year Run

CHESTER, N. Y. (AP) — The Tri-State Master Dairy Farmers Guild has been disbanded after a stormy three-year existence, it was disclosed today.

Twice the Guild staged milk strikes in an effort to boost prices to dairymen. They were marked by strife and ended in failure.

At one time the organization claimed a membership of 8,000 to 9,000 dairy farmers in New York, New Jersey and Pennsylvania.

May Join Other Group

Those remaining to the end were expected to continue in the Dairy Producers Local 69 of the Teamsters Union. This had been set up in January 1958 when the Guild leadership sought affiliation with the Teamsters.

However, the Guild's second milk strike, staged last September, failed when Teamster Union milk drivers did not support the action.

Charles Cartwright of Milford, Pa., the Guild's executive director, said the Teamsters had promised to lend aid but did not keep the promise.

Robert Watch, president of the Guild's Chester Unit, said today that a conference was held Friday night with Teamster organizer Robert Heseltin and plans were mapped for a statewide membership drive by Local 69.

\$40 Million Seen As Budget Slice

GOP Chiefs Agree Slash Is Necessary
For Adoption of Rockefeller's Plan

ALBANY, N. Y. (AP) — Gov. Rockefeller, his two-billion-dollar budget scuttled by a Republican rebellion, was challenged by GOP legislative leaders today to chop at least 40 million dollars off his record spending program.

The Republican chiefs, friendly to Rockefeller but concerned by the mounting revolt in their ranks, have settled on 40 million as the price of passage, a source close to Republican leaders told The Associated Press.

Big Role Possible
For Brown; Dems
Pick Los Angeles

WASHINGTON (AP)—The Democratic party's decision to hold its 1960 convention in Los Angeles appeared likely to move California's Gov. Edmund G. Brown into a kingmaker role in the presidential nominating contest.

The committee voted 71-35 Friday to hold its nominating convention in Los Angeles. Chicago and Philadelphia members fought this decision in an acrimonious five-hour session of the group but lost by votes ranging from 68-37 to 67-39.

Will Get Early Chance

Brown will get an early chance to display himself to the convention delegates in a welcoming speech. It was with just such a speech that Adlai E. Stevenson brought the house down in the 1952 Chicago convention that later nominated him for president.

Probably nobody in California thinks that Brown is a serious candidate. But as a favorite son he can control California's powerful convention vote on the first ballot. After that he can attempt to throw the state's important delegation behind another candidate.

Strike Still On Rival Paper Buys St. Louis Globe; Will Print Both

ST. LOUIS (AP)—The evening St. Louis Post-Dispatch will print the editions of its rival morning Globe-Democrat after a Newspaper Guild strike at the Globe is settled, both papers announced Friday.

The Post, owned by the Pulitzer Publishing Co., has bought the Globe-Democrat building and its mechanical equipment. The price was not disclosed. The Globe is owned by S. I. Newhouse, owner of 13 newspapers.

Globe to Move

The Globe will move to another building, not yet chosen.

The Post plans to move its news and business offices and presses into the Globe building as soon as the Globe finds other quarters and the strike is over.

The Post building is newer and more modern but the newspaper has long been cramped. At one time the Post planned to construct a new building on the western edge of St. Louis but abandoned that idea.

It will combine its presses with the best ones in the Globe building and print both papers, becoming in effect a job printer for the Globe.

The two papers are five blocks apart on the same street in downtown St. Louis. In between, a block from the Globe, is the old Star-Times building which is largely unoccupied.

Officials of both papers said each would carry on as a separate unit. The Post-Dispatch issued a statement saying partly:

"The Globe-Democrat remains the property of S. I. Newhouse and both newspapers will retain their separate identities."

The Globe has been closed eight days by a strike of the Guild over a pension plan. Other provisions of a new contract have been agreed on.

The unexpected announcement came late Friday as Globe-Guild negotiators met with a federal conciliator. The meeting was asked by management.

330 Out on Strike

Immediately after the session ended, Herbert L. Monk, chairman of the strike committee, announced, "The strike is still on. The picket lines will be kept up. All pickets are to report on schedule. The sale will not affect our strike."

Some 330 guildsmen, mostly office and editorial employees, are on strike and their picket lines are being observed by about 700 mechanical workers.

Spring Primary Date
Urged by Democrats

NEW YORK (AP) — Three leaders in the fight against Tammany boss Carmine G. DeSapio have asked the governor to block any attempt to set Sept. 15 as the permanent primary date.

The move Friday caused some surprise, because a late primary date, in September rather than June, supposedly would be an advantage to the insurgents trying to topple DeSapio's leadership.

This was acknowledged in the letter, which came from former Sen. Herbert H. Lehman, Mrs. Franklin D. Roosevelt, and former Air Force Secretary Thomas K. Finletter, leaders of the liberal wing of the Democratic party. The letter was addressed to Gov. Rockefeller.

The letter recommended that a permanent spring primary date, not subject to change from year to year, be set by the Legislature. The three said that they had heard with pleasure that the governor had taken a similar position, in favor of a spring primary, and further urged him to veto a bill which would set the date at Sept. 15.

Weekend Launching Is Likely Hopeful Satellite Will Orbit Sun

By THE ASSOCIATED PRESS
CAPE CANAVERAL, Fla. (AP) — The United States, flexing its missile muscles in a spectacular series of firings, is ready to try again to ram a satellite past the moon and into orbit around the sun.

The Army moon-shoot appears likely this weekend, although the exact time still is a secret.

Many Preliminaries

Preliminaries in the big weekend space show were: Launching of a powerful 80-foot Thor-Able rocket early today on a 5,000-mile ICBM nose cone recovery test.

Successful firing of a 28-foot Jupiter missile Friday over a 1,700-mile range to test its tactical ballistic shell, nose cone, engine, warhead and fusing system.

Launching of the Navy's Polaris nuclear submarine rocket Friday. The Navy later said the Polaris may have broken up soon after it disappeared into the clouds, although considerable test data was recorded. Three of four earlier Polaris firings were unsuccessful.

4-Stage Rocket

The Army moon rocket waiting to take the limelight was a four-stage Juno II — a Jupiter surmounted with three successive stages of Sergeant rockets.

Its star role will be to hurl a 13-pound satellite loaded with radiation equipment past the moon to become an artificial planet whirling around the sun.

The first and second stages of the Juno II rocket will be in a spinning bucket to give stability in flight. There will be 11 of the solid fuel Sergeant rockets in the second stage, three in the third. The fourth stage will be one Sergeant rocket to which the little satellite will be attached.

The planes of the earth and moon are now in the best relation with the moon about 220,000 miles from the earth.

First Test 64,000 Miles

The first Army moon-shoot last Dec. 6 climbed 64,000 miles. The Pioneer II rocket fired by the Air Force last Nov. 8 reached 71,000 miles.

The Soviets have claimed they sent a space probe past the moon early this year.

The Thor-Able fired early today shot through the clouds with a brilliant flash at the start of the nose cone recovery test—the fifth of a series. The first four failed.

Rain, Snow Belt Push
Off Spring Reminders

By THE ASSOCIATED PRESS
Spotty rainfall and a snow belt, continuing reminders of a topsyturvy winter season, dampened the whiff of spring-like weather over much of the nation today.

Fair, mild climes hugged broad areas with the mercury soaring into the 40s and 50s in the North. Another day of sunshine also was the outlook in the South, triggering 60 to 80 degree readings.

But a disturbance over the Great Lakes loosed snowfall and freezing rain at some points.

At least 2 inches of fresh snow, dropped in a 6-hour overnight period, blanketed an area from northeastern Minnesota through parts of Wisconsin to northern Michigan.

A rain front dripped from the Great Lakes into Oklahoma.

Shower activity was prevalent along the South Atlantic Coast, Jacksonville, Fla. was sprayed with 1.46 inches Friday.

Light rain also dotted the Pacific Northwest.

New York Motorists to Begin Paying 40 Per Cent Tax on Car Fuel Sunday

NEW YORK—With the two-cent increase in the state gasoline tax going into effect Sunday, New York car owners will begin paying a total tax of nine cents a gallon, the equivalent of more than a 40 per cent "sales tax" on motor fuel.

Russell E. Watson Jr., executive secretary of the New York State Petroleum Council, noted that the two-cent increase in the state gasoline tax rate will cost highway users an estimated \$72 million additional per year, but still without any assurance that the state's highway tax revenues will be used only for highway purposes.

The POWER of FAITH

by Howard Brodie

World War II was over and a great depression had settled upon France when a humble priest named Abbe Pierre rented a rundown house and gathered about him a group of homeless, lonely, starving men.

The motley band refused charity and took to picking over trash cans and refuse heaps in large cities in order to help the neediest of their fellow men. Soon, Abbe Pierre and his "Ragpickers of Emmaus" became symbols of hope to the despairing.

During the bitter winter of 1954, when helpless thousands walked the streets of Paris, the Ragpickers distributed tons of clothing and blankets collected in a radio appeal by the Abbe himself. They sheltered, fed and gave a new lease on life to nearly 10,000 persons.

The humble Abbe and his Ragpickers, destitute men themselves who started with nothing but faith, demonstrated that charity is everybody's business, rich and poor alike.

The POWER of FAITH

by Howard Bradie

World War II was over and a great depression had settled upon France when a humble priest named Abbe Pierre rented a rundown house and gathered about him a group of homeless, lonely, starving men.

The money band refused charity and took to picking over trash cans and refuse heaps in large cities in order to help the neediest of their fellow men. Soon, Abbe Pierre and his "Ragpickers of Emmaus" became symbols of hope to the despairing.

During the bitter winter of 1954, when helpless thousands walked the streets of Paris, the Ragpickers distributed tons of clothing and blankets collected in a radio appeal by the Abbe himself. They sheltered, fed and gave a new lease on life to nearly 10,000 persons.

The humble Abbe and his Ragpickers, destitute men themselves who started with nothing but faith, demonstrated that charity is everybody's business, rich and poor alike.

Your Life And Mine
By
CLYDE HERBERT SNELL
SPONGES AND SPRINGS

Bishop Gerald Kennedy of The Methodist Church has pointed out the difference between "the philosophy of the sponge and the philosophy of the spring." "The sponge," he says, "swells up several times its normal size to absorb all that it can hold. The spring, on the other hand, bubbles forth across the meadow gladly without trying to save itself, and it is forever a source of life and a symbol of living."

Some people try to live after the pattern of the sponge. They concentrate upon themselves. They make sure that they do not part with any money, or invest any of their time or their energies, unless and until they are dead sure they will get "value received" on the outlay. As far as their lives are concerned, no appeal for assistance to others, no challenge to be helpful ever finds a ready response in them. They guard all their resources, for their own selfish purpose.

Did Scrooge in Dickens' famous story is the classic symbol of the kind of living that thinks only of itself. In the early part of the story Scrooge was taking his cue for existence from the sponge—and what a miserable creature he was!

No fact is more securely established by the evidence gleaned from human experience than that living with a frugal surveillance over every bit of cheer or assistance is never very satisfactory. Setting up a stock clerk to keep track of everything that goes out of life, so that one can account for the size and weight and cost of every item of helpfulness, is one of the surest ways to miss out on life. Even a person who makes up his mind never to smile, unless he is sure someone will see it, does a rank injustice to his own face. Suppose God meted out his sunshine and rain thus. Suppose He never let it rain on grass no one would see; and made sure that no flower ever had access to sunshine unless He were sure that human eyes would view it. That would, indeed, be a queer kind of world.

There is an astounding prodigality in nature. In that there is a mighty lesson for us. A spring always seems so happy as it gives its pure, fresh sparkling water so unstintingly to the world. It never even stops to ask if anybody will need it before it gives. There is no arrangement for turning off the water which no one will use. Someway the spring—and not the sponge—provides the true pattern for living. The person who says to himself: "I have enough burdens of my own without bothering about helping anybody else," will, sooner or later, make the sad discovery that he has the added burden of an empty soul. What fills the soul with splendor, as a kind of extra dividend for wise living, is not a careful concentration upon our own problems but a wider concern which gives and serves without counting the cost. "Catch a passion for helping others," counsels W. R. Danforth, "and a richer life will come back to you." It's true! If you don't believe it—try it! And then you will believe it! But soak up everything for yourself; and life grows rancid and dull.

Presbyterian Men Hold Communion Breakfast Sunday

Henry L. McCorkle, of Swathmore, Pa., managing editor of Presbyterian Life magazine, will be guest speaker during the breakfast period of the 7th annual communion breakfast program of the Colonial City Chapter of Presbyterian Men, at the First Presbyterian Church, Elmendorf Street and Tremper Avenue, Sunday morning, beginning with the service of Holy Communion at 7 o'clock in the sanctuary followed by the breakfast at 8 o'clock in lower hall of Ramsey building. More than 150 men have made reservations.

"The Quiet Revolution" will be the subject of Mr. McCorkle's message. He is the son of Mr. and Mrs. G. A. McCorkle of Stone Ridge, where his brother, Alan P. McCorkle, local insurance agent, is a resident. Born in Chicago, brought up in Swathmore, Mr. McCorkle is a graduate of Williams College, class of 1946. Completing two years at college, he entered and served for two years in the infantry of the U. S. Army.

He returned to college, and upon graduation was called to serve as one of the three associate editors of Presbyterian Life at the time of its launching. While in the army, at a camp near Tallahassee, Fla., he became editor of the camp paper; initiated and conducted a fifteen-minute radio broadcast which, because of its popularity, was extended to thirty minutes.

In 1957, when he was promoted to his present position of managing editor, he made a trip around the world and has had two extensive trips to South American countries. Mr. McCorkle is an Episcopalian, holding membership in Trinity Episcopal Church of his home town, where he sings regularly in the choir.

During the communion service, which will be conducted by the minister, the Rev. William J. McVey, the recently elected officers of the Colonial City Chapter, affiliated with the National Council of Presbyterian Men, are to be installed.

They are, Harry Baxter, president; Everett F. Schoen, vice-president; Howell C. Lowe, secretary; Jonathan Clark, treasurer; John McCullough, tenor; to sing "Gethsemane" by Mary Salter Turner. Mr. Baxter will preside for the breakfast program, and Chester A. Baltz Jr. will introduce the speaker.

Nazarene Church Will Have Guest Speakers Sunday

The Rev. and Mrs. Robert Goslaw, district superintendent of the New York district, Church of the Nazarene, will be guests of the local church, Elmendorf Street at Wiltsyck Avenue, Sunday. The Rev. Mr. Goslaw will speak at the 11 a. m. service and Marjorie Goslaw will speak and show pictures of their recent Caribbean tour in the 7 p. m. service.

The Rev. Mr. and Mrs. Goslaw have just returned from a speaking tour which included Nazarene churches in the Panama Canal Zone, Barbados, Puerto Rico and Haiti. Their messages will be in the form of a report on these mission fields.

Togetherness of Churches Predates Pope's Council

By TOM HENSHAW
AP Religion Writer

A Protestant-Catholic togetherness movement, long antedating Pope John XXIII's call for an ecumenical council, observes its 20th birthday this year.

The movement, called Una Sancta, has been going on so quietly and informally that its participants probably are surprised to find that they have been getting together for two decades.

Exists in Europe

Una Sancta, meaning "One Holy," is confined almost exclusively to the German-speaking countries of Europe. Its participants are chiefly Roman Catholic and Lutheran clergymen and lay theologians.

Informal headquarters is the Benedictine Abbey in Niederaltaich, Germany. Its abbot, the Rt. Rev. Emmanuel Heufelder, says Una Sancta's goal "is not the conversion of the Protestant churches but a genuine meeting of Christians in order to find the will of God together in a new understanding."

See Good in Both

"Both sides are learning to see the good in each other and to be neither anti-Catholic nor anti-Protestant. Differences will remain—not in a hostile manner—but as brothers looking to the same Christ."

Una Sancta was founded in 1939 by a Roman Catholic priest, the Rev. Max Metzger, who was martyred by the German Nazis a few years later for his cooperation with Protestants in opposing Hitler.

The movement received added impetus in World War II when Catholic and Protestant clergy and lay leaders were forced to cooperate—and learn to respect each other—in exile and in concentration camps.

Change of Heart

TOLEDO, Ohio (AP)—A belatedly honest man walked into a Goodwill Industries store and handed \$5 to manager Sherman Kittle. "What for?" asked Kittle. "I've been stealing shoes here since last spring and I want to get my conscience clear," explained the man, walking out without giving his name.

Almost one-half of the population of Hawaii is made up of people of Asiatic descent.

Lutheran Church Hosts Community Lenten Services

The regular Sunday evening community Lenten service will be held this week at 7:30 o'clock at the Lutheran Church of the Redeemer, Wurts and Rogers Streets, with the Rev. Garnet Wilder of Woodstock preaching the Lenten sermon on the topic, "A Loyal Disciple Looks at the Cross."

The vesper service will be conducted by the pastor of the host church, the Rev. David C. Gaise, assisted by the Rev. J. Dean Dykstra, pastor of the Fair Street Reformed Church.

Music for the service will be provided by the choir of Redeemer Church under the direction of Leonard Stine. They will sing the anthem, "Still, Still with Thee," by Foote and "The Lord's Prayer" by Malotte. Mrs. Lester Decker will accompany the choir and will play Peeters' Choral Prelude on "Now rest beneath Night's Shadow" and Chauvet's "Grand Choeur in C" as her incidental selections for the service.

The Rev. Mr. Wilder has served the Woodstock Methodist Parish for four years and has completed his residence requirements for the PhD at Drew University. A native of Georgia, the Rev. Mr. Wilder has studied at the University of Georgia and Emory University and has come to be recognized as one of the forthright and stimulating preachers in the area.

The community services are intended to augment the Lenten programs of the various churches in the area and are open to all who desire to attend. Lenten hymns are sung and the sermons are intended to bring the power of Calvary to bear on our day. Following the service the young people present may attend a brief fellowship period in the assembly room of the church as guests of Redeemer's youth groups.

There will be a duet by Mr. and Mrs. Davis, "Because He Loved Me So." The sermon to be delivered by the Rev. Scott E. Vining is entitled "How To Become A Son of God."

Family Gospel Hour services will be held at 6 p. m. There is a service for adults in the upper auditorium and a service for children in the lower auditorium.

In the service for adults, the pianist will be Gilbert Cicio. The songleader will be Willard Davis. A trio composed of Mrs. Gilbert Cicio, Mrs. Roland Niece, and Mrs. Joseph Loerzel will sing "When I Survey The Wondrous Cross." A group of students from New York State Teachers College, New Paltz, will sing and give testimonies. A girl's trio will sing "Christ Has For Sin Atonement Made." Bob Hicks will sing "Beneath The Cross of Jesus." There will be a Bible study entitled "The Sacrifices For Sin," illustrated by color slides.

In the service for children John Sandeen will direct the Junior and Cherub Choirs. Mrs. Scott E. Vining will present a flannelgraph story "The Church at Thessalonica." A new Bible memory course will be introduced. There will be a visual evangel object lesson. Mrs. Scott E. Vining will supervise the preschool children. Boys and girls of all ages may participate in this program.

Nursery care for young children is provided at both morning and evening services.

The mid-week service and choir rehearsal will be held Wednesday evening at the home of Mr. and Mrs. Scott O. Vining, 140 Main Street. There will be a service of prayer and Bible study 7:30 p. m. The choir will rehearse 8:45 p. m. The Mary and Martha Ladies Fellowship will hold a work day, Thursday, 10 a. m., at the home of Mrs. George Ballantine, Orlando Street. The members will make baby gowns, to be used in a mission hospital in Africa. Those attending will bring sewing equipment. Material and patterns will be provided.

Unitarian Fellowship

Unitarian Fellowship of Ulster County will hold its regular bi-weekly meeting Sunday 8 p. m., at the office of Dr. Jacob Moss, at the corner of Kings Village Drive and Route 9W, Saugerties. Mr. and Mrs. A. L. Gillespie, leaders of the Unitarian Fellowship in Poughkeepsie, will be guests at the meeting, and Mrs. June Gillespie will give a talk about the various liberal religious movements of the day. Questions and discussion will follow. All interested may attend.

Church of the Air

John J. Selover of Boston, associate editor of The Christian Science Journal, Sentinel and Herald, will speak on spiritual healing on a Christian Science half-hour radio program in the CBS "Church of the Air" series Sunday. His address may be heard locally over WCBN, New York at 9:30 a. m. Selover's subject is, "Wilt thou be made whole?" derived from a Bible account of a spiritual healing by Christ Jesus. Music will be supplied by a quartet and soloists.

Your Life
And Mine

By
CLYDE HERBERT SNELL
SPONGES AND SPRINGS

Bishop Gerald Kennedy of The Methodist Church has pointed out the difference between "the philosophy of the sponge and the philosophy of the spring." "The sponge," he says, "swells up several times its normal size to absorb all that it can hold. The spring, on the other hand, bubbles forth across the meadow gladly without trying to save itself, and it is forever a source of life and a symbol of living."

Some people try to live after the pattern of the sponge. They concentrate upon themselves. They make sure that they do not part with any money, or invest any of their time or their energies, unless and until they are dead sure they will get "value received" on the outlay. As far as their lives are concerned, no appeal for assistance to others, no challenge to be helpful ever finds a ready response in them. They guard all their resources, for their own selfish purpose. Old Scrooge in Dickens' famous story is the classic symbol of the kind of living that thinks only of itself. In the early part of the story Scrooge was taking his cue for existence from the sponge—and what a miserable creature he was!

No fact is more securely established by the evidence gleaned from human experience than that living with a frugal surveillance over every bit of cheer or assistance is never very satisfactory. Setting up a stock clerk to keep track of everything that goes out of life, so that one can account for the size and weight and cost of every item of helpfulness, is one of the surest ways to miss out on life. Even a person who makes up his mind never to smile, unless he is sure someone will see it, does a rank injustice to his own face. Suppose God meted out his sunshine and rain thus. Suppose He never let it rain on grass no one would see; and made sure that no flower ever had access to sunshine unless He watched it. The human eyes would weep it. That would, indeed, be a queer kind of world.

There is an astounding prodigality in nature. In that there is a mighty lesson for us. A spring always seems so happy as it gives its pure, fresh sparkling water so unthinkingly to the world. It never even stops to ask if anybody will need it before it gives. There is no arrangement for turning off the water which no one will use. Somewhat the spring—and not the sponge—provides the true pattern for living. The person who says to himself: "I have enough burdens of my own without bothering about helping anybody else," will, sooner or later, make the sad discovery that he has the added burden of an empty soul. What fills the soul with splendor, as a kind of extra dividend for wise living, it not a careful concentration upon our own problems but a wider concern which gives and serves without counting the cost. "Catch a passion for helping others," counsels W. R. Danforth, "and a richer life will come back to you." It's true! If you don't believe it—try it! And then you will believe it! But soak up everything for yourself, and life grows rancid and dull. "There are a great many times," as someone has said, "when you cannot find help, but there is never a time when you cannot give it." And giving it is one of the most miraculous resources of help to be found anywhere. "Remember," counsels the aforementioned Bishop, "that the sponge is a corpse!"

Presbyterian Men
Hold Communion
Breakfast Sunday

Henry L. McCorkle, of Swathmore, Pa., managing editor of Presbyterian Life magazine, will be guest speaker during the breakfast period of the 7th annual communion breakfast program of the Colonial City Chapter of Presbyterian Men, at the First Presbyterian Church, Elmendorf Street and Tremper Avenue, Sunday morning, beginning with the service of Holy Communion at 7 o'clock in the sanctuary followed by the breakfast at 8 o'clock in lower hall of Ramsey building. More than 150 men have made reservations.

"The Quiet Revolution" will be the subject of Mr. McCorkle's message. He is the son of Mr. and Mrs. G. A. McCorkle of Stone Ridge, where his brother, Alan P. McCorkle, local insurance agent, is a resident. Born in Chicago, brought up in Swathmore, Mr. McCorkle is a graduate of Williams College, class of 1946. Completing two years at college, he entered and served for two years in the infantry of the U. S. Army.

He returned to college, and upon graduation was called to serve as one of the three associate editors of Presbyterian Life at the time of its launching. While in the army, at a camp near Tallahassee, Fla., he became editor of the camp paper; initiated and conducted a fifteen-minute radio broadcast which, because of its popularity, was extended to thirty minutes.

In 1957, when he was promoted to his present position of managing editor, he made a trip around the world and has had two extensive trips to South American countries. Mr. McCorkle is an Episcopalian, holding membership in Trinity Episcopal Church of his home town, where he sings regularly in the choir.

During the communion service, which will be conducted by the minister, the Rev. William J. McVey, the recently elected officers of the Colonial City Chapter, affiliated with the National Council of Presbyterian Men, are to be installed.

They are, Harry Baxter, president, Everett H. Schen, vice-president, Howell C. Love, secretary, Jonathan Clark, treasurer, John McCullough, tenor, is to sing "Gethsemane" by Mary Salter Turner. Mr. Baxter will preside for the breakfast program, and Chester A. Baltz Jr. will introduce the speaker.

Nazarene Church
Will Have Guest
Speakers Sunday

The Rev. and Mrs. Robert Goslaw, district superintendent of the New York district, Church of the Nazarene, will be guests of the local church, Elmendorf Street at Wiltyck Avenue, Sunday. The Rev. Mr. Goslaw will speak at the 11 a. m. service and Marjorie Goslaw will speak and show pictures of their recent Caribbean tour in the 7 p. m. service.

The Rev. Mr. and Mrs. Goslaw have just returned from a speaking tour which included Nazarene churches in the Panama Canal Zone, Barbados, Puerto Rico and Haiti. Their messages will be in the form of a report on these mission fields.

George Ronk will be in charge of the music for the services and David Fairbanks will direct the choir. Kenneth White will be the organist for all services and Mrs. Goslaw will also sing in the evening service. The public may attend.

Togetherness of Churches
Predates Pope's Council

By TOM HENSHAW
AP Religion Writer

A Protestant-Catholic togetherness movement, long antedating Pope John XXIII's call for an ecumenical council, observes its 20th birthday this year.

The movement, called Una Sancta, has been going on so quietly and informally that its participants probably are surprised to find that they have been getting together for two decades.

Exists in Europe

Una Sancta, meaning "One Holy," is confined almost exclusively to the German-speaking countries of Europe. Its participants are chiefly Roman Catholic and Lutheran clergymen and lay theologians.

Informal headquarters is the Benedictine Abbey in Niederaltaich, Germany. Its abbot, the Rt. Rev. Emmanuel Heufelder, says Una Sancta's goal is not the conversion of the Protestant churches but a genuine meeting of Christians in order to find the will of God together in a new understanding.

See Good in Both

"Both sides are learning to see the good in each other and to be neither anti-Catholic nor anti-Protestant. Differences will remain—not in a hostile manner—but as brothers looking to the same Christ."

Una Sancta was founded in 1939 by a Roman Catholic priest, the Rev. Max Metzger, who was martyred by the German Nazis a few years later for his cooperation with Protestants in opposing Hitler.

The movement received added impetus in World War II when Catholic and Protestant clergy and lay leaders were forced to cooperate—and learn to respect each other—in exile and in concentration camps.

Change of Heart

TOLEDO, Ohio (AP)—A belatedly honest man walked into a Goodwill Industries store and handed \$5 to manager Sherman Kittle. "What for?" asked Kittle. "I've been stealing shoes here since last spring and I want to get my conscience clear," explained the man, walking out without giving his name.

Almost one-half of the population of Hawaii is made up of people of Asiatic descent.

Lutheran Church
Hosts Community
Lenten Services

The regular Sunday evening community Lenten service will be held this week at 7:30 o'clock at the Lutheran Church of the Redeemer, Wurts and Rogers Streets, with the Rev. Garnet Wilder of Woodstock preaching the Lenten sermon on the topic, "A Loyal Disciple Looks at the Cross."

The vesper service will be conducted by the pastor of the host church, the Rev. David C. Gaise, assisted by the Rev. J. Dean Dykstra, pastor of the Fair Street Reformed Church.

Music for the service will be provided by the choir of Redeemer Church under the direction of Leonard Stine. They will sing the anthem, "Still, Still with Thee" by Fouts and "The Lord's Prayer" by Malotte. Mrs. Lester Decker will accompany the choir and will play Peeters' Choral Prelude on "Now rest beneath Night's Shadow" and Chauvet's "Grand Choeur in C" as her incidental selections for the service.

The Rev. Mr. Wilder has served the Woodstock Methodist Parish for four years and has completed his residence requirements for the PhD at Drew University. A native of Georgia, the Rev. Mr. Wilder has studied at the University of Georgia and Emory University and has come to be recognized as one of the forthright and stimulating preachers in the area.

The community services are intended to augment the Lenten programs of the various churches in the area and are open to all who desire to attend. Lenten hymns are sung and the sermons are intended to bring the power of Calvary to bear on our day. Following the service the young people present may attend a brief fellowship period in the assembly room of the church as guests of Redeemer's youth groups.

STORM WARNING—Seven months of the year are the danger months as far as tornadoes go (see Newschart). But nature's most vicious kind of storm has been known to occur at all seasons and in every state in the Union. According to a study made by the U. S. Weather Bureau of 3,024 tornadoes recorded during the six years, 1950-1956, most twisters strike between noon and midnight.

KINGSTON, NEW YORK, FEBRUARY 28, 1959

4-H CLUB WEEK

More than 700 4-H Club members in Ulster County are planning to celebrate National 4-H Club Week, which will be observed from February 28 to March 7.

During the week, the local 4-Hers program will include window displays, talks by members, alumni and leaders, radio announcements and many other club and community projects.

4-H Club members carry on a wide variety of projects in sewing, cooking, home management and improvement, crafts, dairy, poultry, woodworking, electricity and gardening. They also develop home and community responsibility, good citizenship, skills for later life, character and the ability to get along with others.

Over two million boys and girls throughout the United States belong to 90,700 4-H Clubs. Their work is part of the national education system of cooperation extension work, shared by the Federal, State and County Extension Service. Volunteer local leaders help conduct meetings, teach projects and give assistance to the 4-H members.

The 4-H Club plan has circled the globe, the idea having been adapted to suit varying needs and conditions in more than 50 countries. One way people in other lands become acquainted with the 4-H program is through the International Farm Youth Exchange, now 11 years old. In 1958 about 260 young men and women took part in the program of family, farm and community activities in other countries.

During the observance this year, emphasis will be placed upon salutes to 4-H alumni for their accomplishments in various professions and other occupations where they have exemplified the high ideals of 4-H.

A HINT FOR DETROIT

It is official now: the three major U.S. auto manufacturers expect to have entries in the small-car field by year's end. This is no surprise, since numerous unofficial revelations have been made on the subject. It does confirm the judgment of many ordinary folk that Detroit would at last have to yield to public interest in cars more maneuverable, and cheaper to operate, than the standard product.

The popularity of foreign cars, ranging from midgets to some only a little smaller than American models, has long since scotched the notion that interest in such cars was only a fad that would quickly dwindle. It now appears that the economy and other features of small-car population appeal to a hefty segment of the populace.

It is a pleasant thought that this interest in smaller cars may presage, also, a shift from the trend in recent years toward automobiles that are needlessly big, overpowered, and gaudy to the point of being in downright bad taste. And if Detroit is entering a more sensible phase of automotive development, perhaps it will also incorporate into its designs more of the safety features which help to prevent accidents and minimize their damage.

This may be too much to hope for. The auto manufacturers are extremely practical in these matters; they produce only what they are pretty sure the public most ardently desires. All the same, this might be a good time for Detroit to begin exercising some responsible leadership. A public which has been persuaded to pay a premium for size, luxury and high power might also be persuaded to pay a bit extra for more built-in safety devices.

NO SPACE RAID, PLEASE

The chords of memory were twanged for a lot of Americans when word came that London had fallen for another "attack from space" hoax that was part of a television play. Americans remembered the night, some 20 years ago, when Orson Welles scared the wits out of thousands with his over-realistic radio version of an H. G. Wells science fiction thriller.

'These Days'

By GEORGE SOKOLSKY
OUR AILING OFFICIALS

The tremendous advances that have been made in the medical and bio-chemical sciences would be purposeless if life were not prolonged by them and if those who are stricken by serious illnesses could not continue to work. The man who suffers what used to be called a fatal heart attack may have many years of life and work ahead of him, if he obeys dietary and other instructions. His major problem is to ration his time and to avoid fatigue. He need not give up his career to accomplish either.

Cancer is a bit more difficult, but the word, cancer, is a generic term for a number of related illnesses which may, in the not too distant future, become unrelated as the cause for some of them is fixed. However, many forms of cancer are treatable in certain stages and then one can go back to work.

I have had a coronary occlusion which is a fancy name for one form of heart attack, two other incidents, one of which was heart failure, and a cancer of one kidney. I am doing as much work as ever but my time is more carefully rationed and my diet is both small and unpleasant because it is saltless. But part from a few inconveniences, such as not dancing after a day of hard work or walking my dog, Joe, or smoking big, black cigars, there is hardly a change of routine.

I give this personal testimony because Senator Stuart Symington and Senator Hubert Humphrey are making so sharp a point of appointing a new Secretary of State while John Foster Dulles is in the hospital taking treatment. His presence in the hospital interferes with his work less than if he were hunting quail or travelling about in distant parts of Missouri or Minnesota looking for votes. A telephone at hand; he is no distance from the State Department; he can be in touch with all the world.

Of course, there are those who are so egotistic that if anything is wrong with them they become so preoccupied with themselves that they can think of nothing else. There are others who find work a form of therapy, who reject themselves as problems, even when they feel pain, and become so absorbed in their duties that their will to live is stimulated.

Some people are afraid to die and the scratch of a pin will send them into paroxysms of fear; there are others who fully believe in the life eternal and to whom life and death are stages in the fulfillment of the destiny of the soul. John Foster Dulles, for instance, was raised as a Presbyterian, a faith to which he has been devoted. He surely believes that God's will be done which is a cornerstone of the Calvinistic philosophy which his father preached from the pulpit. Such a man moves through life fearlessly and when he faces death, he does not flinch, for it will come when it comes and is one of the facts of eternal living that needs to be faced.

At this moment, Dulles is valuable to this nation. I do not say indispensable, because we should indeed be a weak and poor nation if any man were indispensable. However, Dulles is useful and needed and as long as his services are available, they are of value. Let them therefore be used up to the last moment.

A word needs to be said about Christian Herter, the Acting Secretary of State. He has some form of arthritis and uses canes or crutches or a wheel chair to get around. So what? Can he exercise his mind? Does he know what he is doing? Is he a man of ability and experience? Does his arthritis interfere with his ability to work? It would seem that some Americans believe that an official of the United States must be physically perfect. George Washington had bad teeth and Franklin D. Roosevelt was a cripple. Maybe we ought to elect Jayne Mansfield's husband President because he is supposed to be physically perfect—I believe the suppleholders call him a muscle man.

It is brains, not muscles of the shank, that we need in the men who do our work. If we find our best brains in cripples, let us use what we find and not be too particular.

The Mature Parent

By MRS. MURIEL LAWRENCE

Uncompromising Opinions Bend a Bit With Maturity

The guests on our local TV program included two young novelists and a noted middle-aged playwright. All were Americans who lived abroad.

The two young expatriates had many faults to find with America. Our foreign policy wobbles, they said; we let situations like Little Rock make us hypocrites before the world. The young lady novelist was especially pained by the way we exaggerate things.

Turning to her, the middle-aged playwright asked, "What European people do you like best?" "Oh, the Spaniards," she said enthusiastically. "They're so courteous—really wonderful."

The playwright's voice was dry as bone. "In the 16th century when they invaded the Low Countries," he said, "I cannot remember that they were remarkable for courtesy."

I can't either. The young lady's incomparable Spaniards not only made their Dutch Council of Blood one of history's unprettiest memories but produced the Conquistadors and turned the racks of the Inquisition.

That the middle-aged playwright could recall these realities and the young lady ignore them is the difference between maturity and youth. Because young people look like grownups, we expect them to know that the human race blends fault and virtue in fairly equal measure. They don't know it. Like the young lady to whom all Americans are braggarts and all Spanish courteous, draw their conclusions about the world as small children draw pictures—in straight lines of uncompromising black and white.

Unless we remember that these primitive views are proper to their time of life, they can rile us terribly whether they are the radical politics Bill brings home from college or John's romantic admiration of the attractive, hard-eyed divorcee down the street.

Let's not argue. We can't change the views. This is what corrects Bill's conclusion that capitalism is a mess just as it tempers John's admiration of the divorcee. We can only wait with a little squirming as possible for experience to moderate their ideas of the world.

Welles science fiction thriller.

One might have supposed that, in these days of man-made satellites and moon rockets, the London populace would have shrugged off the announcer's talk of a space platform hovering "only 1,160 miles from earth." On second thought, perhaps the knowledge that such things can really be made have made 1959 viewers more susceptible than the listeners back in 1938.

In any case, let's hope no enterprising TV script writer will get ideas from the London fiasco. Orson Welles did it up brown, and once was enough.

Many persons have taken to claiming that their ancestors were among those who crossed the Delaware in George Washington's boat. If this keeps up, that little craft will soon be as overcrowded as the Mayflower.

"You Don't See Action Like That Any More These Days"

Washington News

WASHINGTON — (NEA) —

Lt. Gen. E. R. "Pete" Quesada, head of the new Federal Aviation Agency, got his start as an executive and administrator in Washington when he was a new second lieutenant fresh out of flying school. He was named personal aide to the secretary of war.

One day his boss called Pete into the front office and demanded, "Have you been making love to my secretary?"

"No, SIR," he replied promptly. "Are you sure?" "Yes, SIR!" "All right," said the secretary. "Then you fire her."

POET AND LINCOLN biographer Carl Sandburg, who delivered the principal address here in observance of the 150th anniversary of Abraham Lincoln's birth, is only the second American private citizen—not a government official—invited to address a joint session of Congress. The first was George Bancroft, who was invited to speak to the Senate and House way back in 1866.

FAVORITE HOBBY of Rear Adm. William "Red" Raborn, boss of the Navy's Polaris missile project, is playing his electronic chord organ. He practices for at least an hour every night and enjoys giving impromptu concerts whenever he throws a cocktail party.

Although the music takes his mind off missile problems and helps him relax, Raborn explains that he's not sure how it affects his friends. So every time he tosses a party, he gives the

country who want to attend. Main reason for all the enthusiasm is that Prince Juan Carlos, pretender to the Spanish throne, will be on hand. He's 20 years old, handsome, rich and a bachelor.

Pakistan Embassy Press Attache Sayed Haq is convinced that Americans' mania for elaborate auto accessories is getting completely out of hand. He says he came to this conclusion when he took a close look at a model of a horse attached to a sport car's hood ornament.

Draped across the model's back was a miniature tweed horse blanket.

WASHINGTON'S MOST popular art exhibit is the work of Indonesian Military Attache Col. Danudirdjo Ishari. The charming diplomat took up painting as a hobby shortly after coming to Washington. Before long, a greeting card company learned of his pictures and bought a stack of them for greeting card illustrations.

The company recently returned the paintings and Ishari has them displayed again in his basement. He says that news of the pictures has spread to the extent that even tourists are stopping at his house to see them.

The only drawback to his success is that he was recently promoted from assistant to chief military attache. "The new job keeps me so busy," he explains, "that I just don't have time to paint any more."

BIGGEST EXCITEMENT among Washington teen-age girls these days is news about a lavish debutante ball which will be tossed in Madrid, Spain, this summer. Although the shindig has not been officially announced, U. S. Treasurer Ivy Baker Priest, who's honorary chairman of the event, is already getting letters from girls all over

the country who want to attend.

Most enviable dog's life in town is led by Mark, a large boxer pooch who belongs to Sheraton Carleton Hotel general manager Foster Gurney. Mark lives with his master in one of the hotel's elaborate suites, sits in on executive staff meetings and accompanies Gurney on all inspections of the building.

Other evening, however, Gurney almost panicked when he learned that Mark was loose in the dining room. For the dog had set his all-time record that week for canine mischief. It included knocking over and breaking two expensive pot plants, chewing up one of Gurney's \$40 hats and eating a stack of important business documents that had been left on a secretary's desk.

Racing to the dining room, Gurney found his mist going from table to table begging for food. But to his surprise, he learned that not a single guest had complained.

Despite Mark's popularity, it's doubtful that he'll ever get to enter the dining room again. "He's a fine dog," Gurney explains, "but he just doesn't fit in with the atmosphere."

Questions -- Answers

Q—Why has the statue of Venus de Milo no arms?

A—It is generally believed by art authorities that Venus de Milo had arms. When unearthed the statue was in two parts. Pieces of the arms were found with it, as well as a pedestal with an inscription. These later disappeared and have never been found.

Q—How many nations are represented in the College of Cardinals?

A—The new Cardinals are from nine nations, including the 13 from Italy.

Q—What island off the coast of Brazil is larger than Switzerland?

A—The island of Marajo.

Q—How old was Benny Goodman when he began his musical career?

A—He was 14.

BABSON on BUSINESS

By Roger W. Babson

Babson Park, Mass., Feb. 27—I know Berlin. I had an office there before World War I. I also was a correspondent for the New York Times and my daughter, Edith Babson Mustard, and her mother lived in Lucerne, Switzerland, while I travelled throughout Europe. Later we owned a home in Washington, on 14th Street, adjoining the Russian Embassy, where I saw much of the Germans.

Russia Determined To Get Berlin
The Germans, at the instigation of Kaiser Wilhelm, pushed south to the Mediterranean Sea. (As a reminder of him, I have the steering wheel of his private yacht at my home in Mass.) Soon after the Germans met defeat in World War I, Hitler rallied them again to fight for the same cause, "Pan-Germanism" as they called it, presumably with Russia's help.

But Russia has not only become a traitor to Germany, but has secured one-fourth of Germany and a large slice of Berlin itself. The Germans are determined to get this back. The Russians figure that if they can get England, France and the United States to withdraw their troops, Russia can peacefully absorb Berlin and perhaps later all of Germany. As a first step in this campaign, Mikoyan was recently sent to visit us.

Berlin Will Not Wait Too Long
Russia will want to postpone her recent Berlin ultimatum as long as she fears China at her "back door"; but the Germans will not wait too long. They are the bravest and strongest people in Europe. If World War III comes, it will be started from Berlin. The Germans believe that they will be backed secretly by Hungary, Bulgaria, the Czechs, and all the Slavic nations. Germany will fire her atomic bombs over these "buffer" countries, while Russia will not dare to destroy them. They may be the safest place to live during World War III, if or when it comes!

Russia pretends that her great enemy is the United States. Russia's talk about capitalism is merely window-dressing. Russia would like to take us over by infiltration and the help of a radical pro-labor party in the United States—but not by destroying us. I repeat: Russia fears Germany on the West and China on the East. Germany would like to get to the Persian Gulf and get indirect control of Turkey and India; but her main objective today is to win the Russian satellites—or buffer states, so called. This, Germany is preparing to do. Washington cannot talk about this, but those in authority know it. On the other hand, so long as Russia is able to destroy Germany with bombs, I cannot believe that Germany would attack Russia; but this I will discuss next week. All depends upon whether anti-missile missiles are available.

Berlin and the Stock Market
In a recent column, I stated that I am 60 per cent bearish and 40 per cent bullish on the stock market. My main reason for being 40 per cent bullish is because I believe that the next World War will be between Russia and Germany, and with her allies. Germany would finally win. Wall Street believes that this would be the end of communism for another 40 years. Although the United States would be in such a war, we would not bomb Russia unless Russia bombed us, but would be content to keep the Germans well supplied with atomic or hydrogen bombs and anything else they might need. We cannot forget Germany's hideous and barbarous crimes under the Hitler regime; but have the German people ever "double-crossed" us as have the Russians? I have this Berlin affair in mind when saying I am 40 per cent bullish.

I am more than ever convinced, since my recent visit to Africa, that the above is the Berlin program. This is why England retired gradually from India. And Great Britain is now in the process of turning seized German territory in Africa over to the native tribes, with her fingers crossed as to what the final results will be. Charles De Gaulle and Great Britain will be glad to aid Germany when she strikes. Republicans and Democrats in Washington should stop fighting between themselves; but wait. Berlin and trust President Eisenhower, who knows Europe better than any of them.

Editor, The Freeman:
A short time ago the pastor of the First Dutch Church, the Rev. A. E. Oudemool, whom I regard as an ardent Christian man of God, spoke for the little man to be heard relative to the recent oil kickback perjury trial in Ulster County.

Since I will concede this affair involves political categories and the church has no place in politics—but as a Christian, who may not be perfect, I am strongly urged by my own conscience that it is my belief where moral issues are involved the church has a right to raise her voice if she is to be a dynamic force in the world's life and the representative of God in an erring world.

It is not my personal religious concept that any religion belongs inside any church, because we would be violating the commission of Christ who commanded us to exemplify the Gospel to all men in word and deed.

Therefore if we are genuine Christians we are under a personal obligation to let our light so shine before our fellowman that they may see the error of their ways where moral issues are involved, whether political or social, and not merely occupy a pew.

Let me say when we are in conflict, we should resolve our differences in the light of Christian brotherhood to build a better world of mutual understanding and peace among individuals in the community, state, our nation and all nations.

4-H CLUB WEEK

More than 700 4-H Club members in Ulster County are planning to celebrate National 4-H Club Week, which will be observed from February 28 to March 7.

During the week, the local 4-Hers program will include window displays, talks by members, alumni and leaders, radio announcements and many other club and community projects.

4-H Club members carry on a wide variety of projects in sewing, cooking, home management and improvement, crafts, dairy, poultry, woodworking, electricity and gardening. They also develop home and community responsibility, good citizenship, skills for later life, character and the ability to get along with others.

Over two million boys and girls throughout the United States belong to 90,700 4-H Clubs. Their work is part of the national education system of cooperation extension work, shared by the Federal, State and County Extension Service. Volunteer local leaders help conduct meetings, teach projects and give assistance to the 4-H members.

The 4-H Club plan has circled the globe, the idea having been adapted to suit varying needs and conditions in more than 50 countries. One way people in other lands become acquainted with the 4-H program is through the International Farm Youth Exchange, now 11 years old. In 1958 about 260 young men and women took part in the program of family, farm and community activities in other countries.

During the observance this year, emphasis will be placed upon salutes to 4-H alumni for their accomplishments in various professions and other occupations where they have exemplified the high ideals of 4-H.

A HINT FOR DETROIT

It is official now: the three major U.S. auto manufacturers expect to have entries in the small-car field by year's end. This is no surprise, since numerous unofficial revelations have been made on the subject. It does confirm the judgment of many ordinary folk that Detroit would at last have to yield to public interest in cars more maneuverable, and cheaper to operate, than the standard product.

The popularity of foreign cars, ranging from midgets to some only a little smaller than American models, has long since scotched the notion that interest in such cars was only a fad that would quickly dwindle. It now appears that the economy and other features of small-car operation appeal to a hefty segment of the populace.

It is a pleasant thought that this interest in smaller cars may presage, also, a shift from the trend in recent years toward automobiles that are needlessly big, over-powered, and gaudy to the point of being in downright bad taste. And if Detroit is entering a more sensible phase of automotive development, perhaps it will also incorporate into its designs more of the safety features which help to prevent accidents and minimize their damage.

This may be too much to hope for. The auto manufacturers are extremely practical in these matters; they produce only what they are pretty sure the public most ardently desires. All the same, this might be a good time for Detroit to begin exercising some responsible leadership. A public which has been persuaded to pay a premium for size, luxury and high power might also be persuaded to pay a bit extra for more built-in safety devices.

NO SPACE RAID, PLEASE

The chords of memory were twanged for a lot of Americans when word came that London had fallen for another "attack from space" hoax that was part of a television play. Americans remembered the night, some 20 years ago, when Orson Welles scared the wits out of thousands with his over-realistic radio version of an H. G.

'These Days'

By GEORGE SOKOLSKY
OUR AILING OFFICIALS

The tremendous advances that have been made in the medical and bio-chemical sciences would be purposeless if life were not prolonged by them and if those who are stricken by serious illnesses could not continue to work. The man who suffers what used to be called a fatal heart attack may have many years of life and work ahead of him, if he obeys dietary and other instructions. His major problem is to ration his time and to avoid fatigue. He need not give up his career to accomplish either.

Cancer is a bit more difficult, but the word, cancer, is a generic term for a number of related illnesses which may, in the not too distant future, become unrelated as the cause for some of them is fixed. However, many forms of cancer are curable in certain stages and then one can go back to work.

I have had a coronary occlusion which is a fancy name for one form of heart attack, two other incidents, one of which was heart failure, and a cancer of one kidney. I am doing as much work as ever but my time is more carefully rationed and my diet is both small and unpleasant because it is saltless. But part from a few inconveniences, such as not dancing after a day of hard work or walking my dog, Joe, or smoking big, black cigars, there is hardly a change of routine.

I give this personal testimony because Senator Stuart Symington and Senator Hubert Humphrey are making so sharp a point of appointing a new Secretary of State while John Foster Dulles is in the hospital taking treatment. His presence in the hospital interferes with his work less than if he were hunting quail or travelling about in distant parts of Missouri or Minnesota looking for votes. A telephone at hand; he is no distance from the State Department; he can be in touch with all the world.

Of course, there are those who are so egotistic that if anything is wrong with them they become so preoccupied with themselves that they can think of nothing else. There are others who find work a form of therapy, who reject themselves as problems, even when they feel pain, and become so absorbed in their duties that their will to live is stimulated.

Some people are afraid to die and the scratch of a pin will send them into paroxysms of fear; there are others who, fully believing in the life eternal and to whom life and death are stages in the fulfillment of the destiny of the soul, John Foster Dulles, for instance, was raised as a Presbyterian, a faith to which he has been devoted. He surely believes that God's will be done which is a cornerstone of the Calvinistic philosophy which his father preached from the pulpit. Such a man moves through life fearlessly and when he faces death, he does not flinch, for it will come when it comes and is one of the facts of eternal living that needs to be faced.

At this moment, Dulles is valuable to this nation. I do not say indispensable, because we should indeed be a weak and poor nation if any man were indispensable. However, Dulles is useful and needed and as long as his services are available, they are of value. Let them therefore be used up to the last moment.

A word needs to be said about Christian Herter, the Acting Secretary of State. He has some form of arthritis and uses canes or crutches or a wheel chair to get around. So what? Can he exercise his mind? Does he know what he is doing? Is he a man of ability and experience? Does his arthritis interfere with his ability to work? It would seem that some Americans believe that an official of the United States must be physically perfect. George Washington had bad teeth and Franklin D. Roosevelt was a cripple. Maybe we ought to elect Jayne Mansfield's husband President because he is supposed to be physically perfect—I believe the peepholes call him a muscle man.

It is brains, not muscles of the shank, that we need in the men who do our work. We find our best brains in cripples, let us use what we find and not be too particular.

The Mature Parent

By MRS. MURIEL LAWRENCE

Uncompromising Opinions Bend a Bit With Maturity

The guests on our local TV program included two young novelists and a noted middle-aged playwright. All were Americans who lived abroad.

The two young expatriates had many faults to find with America. Our foreign policy wobbles, they said; we let situations like Little Rock make us hypocrites before the world. The young lady novelist was especially pained by the way we exaggerate things.

Turning to her, the middle-aged playwright asked, "What European people do you like best?" "Oh, the Spaniards," she said enthusiastically. "They're so courteous—really wonderful."

The playwright's voice was as dry as bone. "In the 16th century, when they invaded the Low Countries," he said, "I cannot remember that they were remarkable for courtesy."

I can't either. The young lady's incomparable Spaniards not only made their Dutch Council of Blood one of history's unpierced memories but produced the conquistadors and turned the racks of the Inquisition.

That the middle-aged playwright could recall these realities and the young lady ignore them is the difference between maturity and youth.

Because young people look like grownups, we expect them to know that the human race blends fault and virtue in fairly equal measure. They don't know it. Like the young lady to whom all Americans are braggarts and all Spanish courteous, draw their conclusions about the world as small children draw pictures—in straight lines of uncompromising black and white.

Unless we remember that these primitive views are proper to their time of life, they are as terrible whether they are the radical politics Bill brings home from college or John's romantic admiration of the attractive, hard-eyed divorcee down the street.

Let's not argue. We can't change the views. This is what corrects Bill's conclusion that capitalism is a mess just as it tempers John's admiration of the divorcee. We can only wait with as little squirming as possible for experience to moderate their ideas of the world.

Welles science fiction thriller.

One might have supposed that, in these days of man-made satellites and moon rockets, the London populace would have shrugged off the announcer's talk of a space platform hovering "only 1,160 miles from earth." On second thought, perhaps the knowledge that such things can really be made may have made 1959 viewers more susceptible than the listeners back in 1938.

In any case, let's hope no enterprising TV script writer will get ideas from the London fiasco. Orson Welles did it up brown, and once was enough.

Many persons have taken to claiming that their ancestors were among those who crossed the Delaware in George Washington's boat. If this keeps up, that little craft will soon be as overcrowded as the Mayflower.

Washington News

BY JERRY BENNETT
NEA Staff Correspondent

WASHINGTON — (NEA) — Lt. Gen. E. R. "Pete" Quesada, head of the new Federal Aviation Agency, got his start as an executive and administrator in Washington when he was a new second lieutenant fresh out of flying school. He was named personal aide to the secretary of war.

One day his boss called Pete into the front office and demanded, "Have you been making love to my secretary?"

"No, SIR!" he replied promptly. "Are you sure?" "Yes, SIR!" "All right," said the secretary. "Then you fire her."

POET AND LINCOLN biographer Carl Sandburg, who delivered the principal address here in observance of the 150th anniversary of Abraham Lincoln's birth, is only the second American private citizen—not a government official—invited to address a joint session of Congress. The first was George Bancroft, who was invited to speak to the Senate and House way back in 1866.

FAVORITE HOBBY of Rear Adm. William "Red" Raborn, boss of the Navy's Polaris missile project, is playing his electronic chord organ. He practices for at least an hour every night and enjoys giving impromptu concerts whenever he throws a cocktail party.

Although the music takes his mind off missile problems and helps him relax, Raborn explains that he's not sure how it affects his friends. So every time he tosses a party, he gives the

guests two little wads of cotton to put in their ears when concert time rolls around.

PAKISTAN EMBASSY Press Attache Sayed Haq is convinced that Americans' mania for elaborate auto accessories is getting completely out of hand. He says he came to this conclusion when he took a close look at a model of a horse attached to a sport car's hood ornament.

Draped across the model's back was a miniature tweed horse blanket.

WASHINGTON'S MOST popular art exhibit is the work of Indonesian Military Attache Col. Daudirdjo Ishari. The charming diplomat took up painting as a hobby shortly after coming to Washington. Before long, a greeting card company learned of his pictures and bought a stack of them for greeting card illustrations.

The company recently returned the paintings and Ishari has them displayed again in his basement. He says that news of the pictures has spread to the extent that even tourists are stopping at his house to see them.

The only drawback to his success is that he was recently promoted from assistant to chief military attache. "The new job keeps me so busy," he explains, "that I just don't have time to paint any more."

BIGGEST EXCITEMENT among Washington teen-age gals these days is news about a lavish debutante ball which will be tossed in Madrid, Spain, this summer. Although the shindig has not been officially announced, U. S. Treasurer Ivy Baker Priest, who's honorary chairman of the event, is already getting letters from girls all over

the country who want to attend.

Main reason for all the enthusiasm is that Prince Juan Carlos, pretender to the Spanish throne, will be on hand. He's 20 years old, handsome, rich and a bachelor.

MOST ENVIABLE dog's life in town is led by Mark, a large boxer pooch who belongs to Sheraton Carleton Hotel general manager Foster Gurney. Mark lives with his master in one of the hotel's elaborate suites, sits in on executive staff meetings and accompanies Gurney on all inspections of the building.

Other evening, however, Gurney almost panicked when he learned that Mark was loose in the dining room. For the dog had set his all-time record that week for canine mischief. It included knocking over and breaking two expensive pot plants, chewing up one of Gurney's \$40 hats and eating a stack of important business documents that had been left on a secretary's desk.

Racing to the dining room, Gurney found his mutt going from table to table begging for food. But to his surprise, he learned that not a single guest had complained.

Despite Mark's popularity, it's doubtful that he'll ever get to enter the dining room again. "He's a fine dog," Gurney explains, "but he just doesn't fit in with the atmosphere."

BABSON on BUSINESS

By Roger W. Babson

Babson Park, Mass., Feb. 27—I know Berlin. I had an office there before World War I. I also was a correspondent for the New York Times and my daughter, Edith Babson Mustard, and her mother lived in Lucerne, Switzerland, while I travelled throughout Europe. Later we owned a home in Washington, on 14th Street, adjoining the Russian Embassy, where I saw much of the Germans.

Russia Determined to Get Berlin

The Germans, at the instigation of Kaiser Wilhelm, pushed south to the Mediterranean Sea. (As a reminder of him, I have the steering wheel of his private yacht at my home at 58 Middle Street, Gloucester, Mass.) Soon after the Germans met defeat in World War I, Hitler rallied them again to fight for the same cause. "Pan-Germanism" as they called it, presumably with Russia's help.

But Russia has not only become a traitor to Germany, but has secured one-fourth of Germany and a large slice of Berlin itself. The Germans are determined to get this back. The Russians figure that if they can get England, France, and the United States to withdraw their troops, Russia can peacefully absorb Berlin, and perhaps later all of Germany. As a first step in this campaign, Mikoyan was recently sent to visit us.

Berlin Will Not Wait Too Long

Russia will want to postpone her recent Berlin ultimatum as long as she can. China at her "back door"; but the Germans will not wait too long. They are the bravest and strongest people in Europe. If World War III comes, it will be started from Berlin. The Germans believe that they will be backed secretly by Hungary, Bulgaria, the Czechs, and all the Slavic nations. Germany will fire her atomic bombs over these "buffer" countries, while Russia will not dare to destroy them. They may be the safest place to live during World War III, if or when it comes!

Russia pretends that her great

enemy is the United States. Russia's talk about capitalism is merely window-dressing. Russia would like to take us over by infiltration—and the help of a radical pro-labor party in the United States—but not by destroying us. I repeat: Russia fears Germany on the West and China on the East. Germany would like to get to the Persian Gulf and get indirect control of Turkey and India; but her main objective today is to win the Russian satellites or "buffer states," so called. This Germany is preparing to do. Washington cannot talk about this, but those in authority know it. On the other hand, so long as Russia is able to destroy Germany with bombs, I cannot believe that Germany would attack Russia; but this I will discuss next week. All depends upon whether anti-missile missiles are available.

Dulles to Receive New Treatment Today

WASHINGTON (AP)—Secretary of State Dulles, still keeping posted on world developments, gets another radiation treatment today for cancer.

President Eisenhower spent a half hour with Dulles Friday in the secretary's office. Dulles' press secretary James C. Hagerty said he assumed the Berlin situation was discussed during the visit.

Dulles also got a report on international news during a 10-minute telephone conversation with Joseph P. Kamp, Jr., his special assistant.

Dulles' cancer treatments are expected to continue for at least another two weeks.

Peter Rainier, British admiral who figured in the American Revolution, gave his name to Mt. Rainier.

Hoffa Gets Word To Call Strike Against S & R

MIAMI BEACH, Fla. (AP) — The Teamsters Union directors has given James Hoffa authority to call a strike against Sears, Roebuck and Co.

The union is trying to organize Sears mail order, warehouse and truck driver employees across the country.

There was no elaboration on the union on how a strike should be conducted.

However, in union organizational campaigns a call for a strike of a non-organized company or plant ordinarily means a picketing of the company's operations.

Under such a "strike" the union seeks to organize the workers by establishing picket lines in efforts to persuade employees to enroll in the union and customers to refrain from conducting business with the struck company.

Ordinarily there is no requirement that any company workers who have signed up with the union leave their jobs. On the contrary, in many instances those already employed remain on their jobs and continue to advocate union enrollment of fellow workers.

Hoffa, president of the union, announced Friday he is negotiating to add some 10,000 oil refinery workers to his union.

He said the door is open to any other independent group to come under the Teamsters banner.

"We'll take in any group that wants to come in," Hoffa said.

Hoffa said he will remain in Miami Beach until Monday when he will confer with representatives of some 10,000 oil refinery workers from Texas, New Jersey and Louisiana, all employees of the Standard Oil Co.

Already the Teamsters are the nation's biggest labor organization. They claim more than 1,600,000 members.

New Paltz Dr. Badeau Will Be Century Club Speaker

NEW PALTZ — Dr. John S. Badeau will speak on "The Lands Between" Sunday evening at the XX-Century Club meeting in the lounge of the Reformed Education Building at 7:30.

Dr. Badeau, president of the Near East Foundation, has recently returned from Africa where he visited Ghana and the Sudan a week before the military coup d'etat took place. He is a graduate of Union College, where he studied engineering and New Brunswick Theological Seminary. He became president of the Baghdad School for Boys and later president of American University, Cairo, Egypt. During the Middle East crisis, he was a frequent consultant at the State Department.

Dr. Badeau also will be guest preacher at the morning worship service at the Reformed Church on Sunday morning at 11 o'clock.

Require 90 Per Cent

The deductions would begin after the Development Board certified that at least 90 per cent of the producers in the milkshed had received letters from their handlers. The deductions would then continue until such time as the Board determined that more than 25 per cent of the producers who received the letter had not been contributing for three consecutive months. In such an event, the program would be abandoned.

At the end of each year, the market administrator would have to make a new determination of producer sentiment. If there were lack of substantial opposition, handlers would again send the "positive letter" to their producers.

SHOOTING FOR THE HEAVENS — The Army, it was reported, will try to add a new "planet" to the solar system this weekend. For its second probe, the Army has readied a four-stage moon rocket carrying a 13-pound payload. The newest probe is "Pioneer IV." If the rocket works properly, it will follow the trail through

space blazed by Russia's "Lunik." The 13-pound payload will join "Lunik" as a second satellite of the sun. Newschart shows how plans call for the "Pioneer IV" payload to hurtle past the moon to become a satellite of the sun, roughly 93,000,000 miles from the earth. (NEA Telephoto)

Public Meeting On Milk Program Slated April 2

NEW YORK — Nine public meetings including one in Kingston, April 2 to determine sentiment of dairy farmers on a milk promotion and research program were announced by Dr. C. J. Blanford, market administrator of New York-New Jersey milk marketing area.

The meeting in Kingston will be held in Governor Clinton Hotel.

Begin On March 17

The meetings throughout the marketing area will begin March 17 and extend over a three-week period. Discussions will be held on a proposed fluid milk promotion and research program. All meetings will begin at 10 a. m.

After the meetings, Dr. Blanford must determine whether there has been substantial objection to the proposed program by dairy farmers. If there has not been, the program will be put into operation through the Producers Milk Market Development Board, Inc., which is made up of dairy farmers.

Financing of the program would come from dairy farmers who agree voluntarily to contribute one-cent per hundredweight of the milk produced for one year. Any producer could withdraw his support at any time he chooses.

If Dr. Blanford's findings permit the program, handlers of milk would send a so-called "positive letter" to dairy farmers informing them that one-cent per hundredweight would be deducted for the Producers Milk Market Development Board unless the producer informed the handler that the deduction should not be made from his milk check.

Require 90 Per Cent

The deductions would begin after the Development Board certified that at least 90 per cent of the producers in the milkshed had received letters from their handlers. The deductions would then continue until such time as the Board determined that more than 25 per cent of the producers who received the letter had not been contributing for three consecutive months. In such an event, the program would be abandoned.

At the end of each year, the market administrator would have to make a new determination of producer sentiment. If there were lack of substantial opposition, handlers would again send the "positive letter" to their producers.

U. S. Road Toll Up in January

CHICAGO (AP) — The nation's traffic death toll jumped 4 per cent in January, interrupting a general two-year downtrend in such fatalities.

January's 2,875 deaths totaled 110 more than the same month a year ago.

The National Safety Council said January traffic accidents also caused about 100,000 disabling injuries.

Estimate \$20,000 Damage at Fire In Dutchess Town

A duplex frame dwelling and a barn on the Diddel Station Road, Town of La Grange, Dutchess County, burned to the ground Friday afternoon with a loss estimated at \$20,000.

One of the apartments was occupied by Mr. and Mrs. Walter Clark.

Mrs. Clark and her four children were in the yard about 2:30 p. m. when she noticed smoke coming from the house. She rushed inside and saw that it was pouring from the baseboard near a socket in which the television wire was plugged.

Suddenly the whole wall seemed to give way, as if by an explosion and the room became involved in flames.

Mrs. Clark gave the alarm but firemen from area companies were unable to save the dwelling or a large barn located about 15 feet from the house.

Name Aide to Education Department Commission

ALBANY — Dr. James E. Allen Jr., commissioner of education today announced the appointment of Dr. Hugh M. Flick as associate commissioner for cultural education and special services in the State Education Department.

This position was established last year by the State Board of Regents. Dr. Flick who presently is executive assistant to the commissioner of education will assume his new post March 26.

Dr. Flick joined the State Education Department in 1928 as an assistant in the Division of Archives and History and has been with the department since, except for three years with the New York Historical Society and almost six years in the armed services.

Macmillan Is Met

a peace treaty with Germany and settle the Berlin issue, the Soviets will sign a separate pact with East Germany. The Western powers do not recognize the Communist East German state.

Mikoyan, standing for a seat in the Soviet Federation Parliament, made his remarks at a political rally at Rostov-on-Don while Macmillan was visiting the Ukrainian capital of Kiev.

Macmillan told his Soviet hosts at a dinner in Kiev Friday night that the Soviet Union must negotiate with an honest desire for fair agreement if it really wants peace.

Ready to Give Up

But sources close to the British delegation said Macmillan has just about given up hope of bringing East and West closer together on the Berlin crisis in view of Khrushchev's uncompromising stand.

The Soviet Premier attacked the West Tuesday and turned down a Western call for a foreign ministers' conference on Germany.

However, British Foreign Secretary Selwyn Lloyd, accompanying Macmillan, has been pictured as determined to salvage something out of the Khrushchev-Macmillan talks which have been unproductive thus far.

To Meet Again Monday

A final meeting between the two leaders is scheduled in the Kremlin Monday with a communiqué to follow.

Macmillan flew to Leningrad today for a visit there before returning to Moscow.

The British Prime Minister was faintly praised and roundly criticized in Mikoyan's Rostov-on-Don speech.

Mikoyan said the initial impression from Macmillan's visit was that the British leader was "probing for mutually acceptable solutions to important problems." He said Macmillan "displayed initiative by advancing several proposals on trade and cultural exchange."

"Later, when the talks turned to the peace treaty with Germany and the Berlin question, the Prime Minister had assumed a tough line, possibly weighed down by his Allied commitments."

Po'keepsie Woman Dies After Being Struck by Auto

Mrs. Elizabeth Buschbaum, 63, of 210 Main Street, Poughkeepsie, a Dutchess County Court officer, died early Friday night about two hours after she was struck by a car on a Poughkeepsie street.

She was the mother of Roland Massie, a detective in the Identification Bureau of the Poughkeepsie Police Department.

The police department reported that Mrs. Buschbaum was struck by a 1952 sedan operated by Joseph R. Galluccio, 32, of 35 Church Street, Poughkeepsie.

Galluccio was proceeding west on Mill Street and has just crossed the intersection at New Market Street when, he told police, he saw a dark form at his right front fender. He slammed on his brakes, heard a thump, stopped and found Mrs. Buschbaum lying in the street.

A verdict of accidental death was issued by the Dutchess County medical examiner. Death was caused by cerebral contusion and basal skull fracture. Both of her legs were also fractured. The accident occurred at 5:44 p. m.

Fire Injures Two In Columbia Blaze

Two elderly Columbia County residents who suffered second degree burns Friday morning when fire destroyed their home on Route 66, near Greenport, were admitted to Columbia Memorial Hospital, Hudson, for treatment.

Monica Waitkus, 81, was repositioned in satisfactory condition this morning. Paul Tiscikas, 74, was discharged this morning.

Claverack state police said a faulty stove was apparently the source of the blaze. The two victims suffered burns of the face and hands.

Troopers said a 1956 sedan was destroyed in the fire but that the woman managed to save \$430 in cash.

Says Sputnik Was Blessing
The launching of Sputnik, a great scientific achievement and propaganda victory, was a blessing in disguise to this country, jolting us out of our complacency, she said.

One great advantage the United States has in the battle for uncommitted peoples of the world is that we still believe in democracy, she said, pointing out that two-thirds of the uncommitted peoples also believe in a divine being.

She said she favors encouragement for gifted students, pointing out that we must utilize all our educational resources. She also called attention to the importance of good teachers and curriculums.

She said she is confident that the West will win the war of ideas, that in her travels she has found everywhere a feeling of kindness toward this country but pointed out that we must strive to maintain the highest possible standards of education regardless of cost.

WIFE, CHILDREN and GRANDCHILDREN

In loving memory of our mother, Emily Schermerhorn, who passed away 8 years ago, March 1, 1951.

She has not left us as we thought. Nor has she traveled far. Just entered God's most lovely room.

And left the door ajar.

Memorial

In loving memory of my dear wife and our dear mother, Eva Sullivan, who departed this world three years ago February 29, 1956:

Remembrance of one so dear. Often brings a silent tear. Thoughts return of things long past.

Time rolls on but memories last.

Hoffa Gets Word To Call Strike Against S & R

MIAMI BEACH, Fla. (AP) — The Teamsters Union directors have given James Hoffa authority to call a strike against Sears, Roebuck and Co.

The union is trying to organize Sears mail order, warehouse and truck driver employees across the country.

There was no elaboration from the union on how a strike should be conducted.

However, in union organizational campaigns a call for a strike of a non-organized company or plant ordinarily means a picketing of the company's operations.

Under such a "strike" the union seeking to organize the workers establishes picket lines in efforts to persuade employees to enroll in the union and customers to refrain from conducting business with the struck company.

Ordinarily there is no requirement that any company workers who have signed up with the union leave their jobs. On the contrary, in many instances those already enrolled remain on their jobs and continue to advocate union enrollment of fellow workers.

Hoffa, president of the union, announced Friday he is negotiating to add some 10,000 oil refinery workers to his union.

He said the door is open to any other independent group to come under the Teamsters banner.

"We'll take in any group that wants to come in," Hoffa said.

Hoffa said he will remain in Miami Beach until Monday when he will confer with representatives of some 10,000 oil refinery workers from Texas, New Jersey and Louisiana, all employees of the Standard Oil Co.

Already the Teamsters are the nation's biggest labor organization. They claim more than 1,600,000 members.

New Palts

Dr. Badeau Will Be Century Club Speaker

NEW PALTZ — Dr. John S. Badeau will speak on "The Lands Between" Sunday evening at the XX-Century Club meeting in the lounge of the Reformatory Education Building at 7:30.

Dr. Badeau, president of the Near East Foundation, has recently returned from Africa where he visited Ghana and the Sudan a week before the military coup d'etat took place. He is a graduate of Union College, where he studied engineering and New Brunswick Theological Seminary. He became president of the Baghdad School for Boys and later president of American University, Cairo, Egypt. During the Middle East crisis, he was a frequent consultant at the State Department.

Dr. Badeau also will be guest preacher at the morning worship service at the Reformed Church on Sunday morning at 11 o'clock.

New Palts Study Guest Night Tuesday

NEW PALTZ, Feb. 28 — The New Palts Study Club will hold its annual guest night, Tuesday, March 3 at 6:30 p. m. in the social room of the Reformed Church. A buffet supper will be served. Frederic Snyder, Kingston news analyst, will speak on "The Future of the Hudson Valley."

Mr. Snyder has been a consultant groups interested in the future of the Hudson and is the originator of the Hudson River Relay Association, which relays from generation to generation the worth of the Hudson Valley to the rest of the nation.

Each member of the Study Club may bring a guest. Mrs. Clifford Hoppens and her committee are taking reservations for the supper.

SHOOTING FOR THE HEAVENS — The Army, it was reported, will try to add a new "planet" to the solar system this weekend. For its second probe, the Army has readied a four-stage moon rocket carrying a 13-pound payload. The newest probe is "Pioneer IV." If the rocket works properly, it will follow the

space blazed by Russia's "Lunik." The 13-pound payload will join "Lunik" as a second satellite of the sun. Newsweek shows how plans call for the "Pioneer IV" payload to hurtle past the moon to become a satellite of the sun, roughly 93,000,000 miles from the earth. (NEA Telephoto)

Public Meeting On Milk Program Slated April 2

NEW YORK — Nine public meetings including one in Kingston, April 2 to determine sentiment of dairy farmers on a milk promotion and research program were announced by Dr. C. J. Blanford, market administrator of New York-New Jersey milk marketing area.

The meeting in Kingston will be held in Governor Clinton Hotel.

Begin On March 17

The meetings throughout the marketing area will begin March 17 and extend over a three-week period. Discussions will be held on a proposed fluid milk promotion and research program. All meetings will begin at 10 a. m.

After the meetings, Dr. Blanford said, determine whether there has been substantial objection to the proposed program by dairy farmers. If there has not been, the program will be put into operation through the Producers Milk Market Development Board, Inc., which is made up of dairy farmers.

Financing of the program would come from dairy farmers who agree voluntarily to contribute one-cent per hundredweight of the milk produced for one year. Any producer could withdraw his support at any time he chooses.

If Dr. Blanford's findings permit the program, handlers of milk would send a so-called "positive letter" to dairy farmers informing them that one-cent per hundredweight would be deducted for the Producers Milk Market Development Board unless the producer informed the handler that the deduction should not be made from his milk check.

Require 90 Per Cent

The deductions would begin after the Development Board certified that at least 90 per cent of the producers in the milkshed had received letters from their handlers. The deductions would then continue until such time as the Board determined that more than 25 per cent of the producers who received the letter had not been contributing for three consecutive months. In such an event, the program would be abandoned.

At the end of each year, the market administrator would have to make a new determination of producer sentiment. If there were lack of substantial opposition, handlers would again send the "positive letter" to their producers.

U. S. Road Toll Up in January

CHICAGO (AP) — The nation's traffic death toll jumped 4 per cent in January, interrupting a general two-year downtrend in such fatalities.

January's 2,875 deaths totaled 110 more than the same month a year ago.

The National Safety Council said January traffic accidents also caused about 100,000 disabling injuries.

Estimate \$20,000 Damage at Fire In Dutchess Town

A duplex frame dwelling and a barn on the Diddel Grange Road, Town of La Station, Dutchess County, burned to the ground Friday afternoon with a loss estimated at \$20,000.

Only one of the apartments was occupied by Mr. and Mrs. Walter Clark.

Mr. Clark and his four children were in the yard about 2:30 p. m. when they noticed smoke coming from the house. She rushed inside and saw that it was pouring from the television set in a room in which the television wire was plugged.

Suddenly the whole wall seemed to give way, as if by an explosion and the room became involved in flames.

Mrs. Clark gave the alarm but firemen from area companies were unable to save the dwelling or a large barn located about 15 feet from the house.

Name Aide to Education Department Commission

ALBANY — Dr. James E. Allen Jr., commissioner of education today announced the appointment of Dr. Hugh M. Flick as associate commissioner for cultural education and special services in the State Education Department.

This position was established last year by the State Board of Regents. Dr. Flick who presently is executive assistant to the commissioner of education will assume his new post March 26.

Dr. Flick joined the State Education Department in 1928 as an assistant in the Division of Archives and History and has been with the department since, except for three years with the New York Historical Society and almost six years in the armed services.

Macmillan Is Met

a peace treaty with Germany and settle the Berlin issue, the Soviets will sign a separate pact with East Germany. The Western powers do not recognize the Communist East German state.

Mikoyan, standing for a seat in the Soviet Federation Parliament, made his remarks at a political rally at Rostov-on-Don where Macmillan was visiting the Ukrainian capital of Kiev.

Macmillan told his Soviet hosts at a dinner in Kiev Friday night that the Soviet Union must negotiate with an honest desire for fair agreement if it really wants peace.

But sources close to the British delegation said Macmillan has just about given up hope of bringing East and West closer together on the Berlin crisis in view of Khrushchev's uncompromising stand.

The Soviet Premier attacked the West Tuesday and turned down a Western call for a foreign ministers' conference on Germany.

However, British Foreign Secretary Selwyn Lloyd, accompanying Macmillan, has been pictured as determined to salvage something out of the Khrushchev-Macmillan talks which have been unproductive thus far.

To Meet Again Monday
A final meeting between the two leaders is scheduled in the Kremlin Monday with a communique to follow.

Macmillan flew to Leningrad today for a visit there before returning to Moscow.

The British Prime Minister was faintly praised and roundly criticized in Mikoyan's Rostov-on-Don speech.

Mikoyan said the initial impression from Macmillan's visit was that the British leader was "probing for mutually acceptable solutions to important problems." He said Macmillan "displayed initiative by advancing several proposals on trade and cultural exchange."

"Later, when the talks turned to the peace treaty with Germany and the Berlin question, the Prime Minister had assumed a tough line, possibly weighed down by his Allied commitments."

Po'keepsie Woman Dies After Being Struck by Auto

Mrs. Elizabeth Buschbaum, 63, of 210 Main Street, Poughkeepsie, a Dutchess County Court officer, died early Friday night about two hours after she was struck by a car on a Poughkeepsie street.

She was the mother of Roland Messie, a detective in the Identification Bureau of the Poughkeepsie Police Department.

The police department reported that Mrs. Buschbaum was struck by a 1952 sedan operated by Joseph R. Galluccio, 32, of 35 Church Street, Poughkeepsie.

Galluccio was proceeding west on Mill Street and has just crossed the intersection at New Market Street when he told police, he saw a dark form at his right front fender. He slammed on his brakes, heard a thump, stopped and found Mrs. Buschbaum lying in the street.

A verdict of accidental death was issued by the Dutchess County medical examiner. Death was caused by cerebral contusion and basal skull fracture. Both of her legs were also fractured.

The accident occurred at 5:44 p. m.

Store Gasoline, Oil in Fuel Cans

Since nearly every family now has power-driven apparatus, the proper storage and handling of gasoline and oil around the home is of major concern.

Many accidents involving the storage and handling of fuel could be eliminated if all gasoline and oil were stored in steel fuel cans instead of fragile glass bottles or other substitute containers.

Steel fuel cans have tight-fitting caps and convenient pouring spouts to facilitate handling. The caps on these rust-resistant cans lock in dangerous fumes that present a distinct fire hazard. The pouring spout should come into contact with the tank when handling gasoline. This grounds the spout and prevents the formation of static electricity, which could ignite the fuel.

Wax Floors Often

Home economists say that floors should be waxed often enough to prevent dust and grime from getting into the wood. Floors should be waxed about once a month, although heavy-traffic areas may require occasional "touch-up" jobs.

The 'Shelby' ... Three Bedroom Home

Rooms Five
Bedrooms Three
Closets Seven
Cubage 30,500
Dimensions 54' x 33'

Seldom do you find a house that will do as much for you as this one. It's planned for economy, both in the size of the house and the lot. Yet it is solidly built, good-looking and will make a fine, comfortable home for several people.

It's the "Shelby," choice of the Home of the Week Plan Service. And it's well-designed with three bedrooms.

Outside measurements of 54 feet by 33 feet give plenty of leeway when you choose a lot. With the garage an integral part of the house, the "Shelby" will fit a 75-foot lot and look perfectly at home.

No one need say that ranches look too much alike. As this one shows, a little imagination can go a long way to make a house delightfully different.

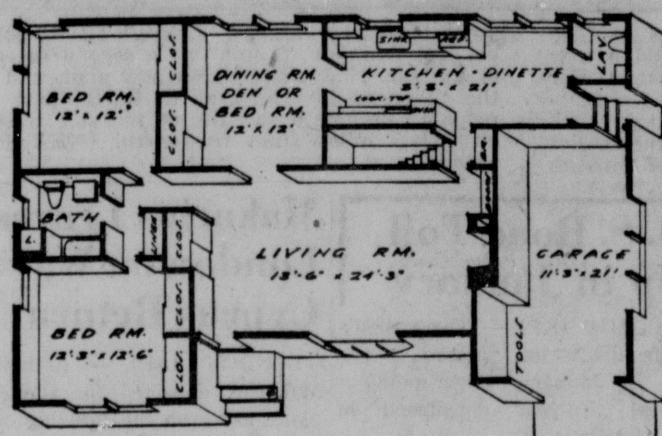

Black panels and the use of black and white figures give this one a fresh, attractive look. The picture window is bowed, and the smaller windows have black blinds. The person who doesn't care for black can easily specify his own favorite color. Or, for that matter, change the basic color and create an en-

tirely new look. And while the landscaping looks pleasing here, a planter could be built under the bow window without increasing costs very much.

The "Shelby"

Spaciousness
In the interior, spaciousness highlights the long living room. Focal points are the bowed out window and a fireplace at the extreme right. Bookshelves are provided at the left of the fireplace, giving the homemaker an extra start toward cozy decoration and a look of gracious living.

At the rear is a long room designed for a kitchen-dinette. The work area is, of course,

strictly modern. From the handy counters around the sink, it's perfectly easy to serve persons sitting in the dinette. Or to step into the next if it has been made a dining room. A lavette is provided at the right.

As there are two other rooms used for sleeping, this room may be made into a den, sewing room or dining room. Or, if the family grows, it can be a bedroom.

The plan of the "Shelby" is acceptable to both VA and FHA.

Blueprints Available

Complete plans and specifications for this house and all other "Home of the Week" designs are available at moderate cost.

Veterans Rights and Benefits Listed

Howard C. Shurter, county director Veterans' Service Agency, and Charles L. Culver, state veterans counselor, NYS Division of Veterans Affairs, submit another in a series of articles on rights and benefits of veterans, servicemen and other dependents.

Civil Service—Applications for the following positions in the New York State Civil Service will be accepted up to March 6, 1959: Senior Civil Engineer (Design), Senior Landscape Architect, Senior Valuation Engineer, Assistant Civil Engineer, Engineering Technician, Draftsman, Correction Officer, Male and Female Correction Hospital Attendants, Librarian, Supreme Court Library, Kings County, Director of Research, State Commission Against Discrimination, Field Representative (In-

tercultural Education), Rehabilitation Counselor Trainee and Camp Supervisor, Westchester County, which is open to legal residents of any county in New York State. Examinations for these competitive Civil Service positions will be held on April 4, 1959.

On Saturday, March 14, 1959, an open competitive examination for position as Trooper, New York State Division of State Police, will be held. Applications must be submitted on forms provided by the Superintendent of the N. Y. State Police and may be obtained in person or by mail from the Division of State Police, Capitol, Albany, N. Y. Applications submitted by mail must be filed with the DSP, Capitol, Albany, N. Y., not later than midnight March 9, 1959. Applications filed in person in the office of the DSP must be filed not later than midnight March 11, 1959.

Legislation—Both the United States House of Representatives and the United States Senate passed legislation for veterans living in small towns and rural areas. The House passed bill proposes to make available to the Veterans Administration \$300 million for use in its direct loan program. The Senate passed bill approved \$150 million for the direct loan program. It is anticipated by reliable sources that the Senate and House Conference Committee will agree on a figure between \$200 and \$250 million for the direct loan program. Another important feature of this proposed legislation is an increase in the rate of interest on a GI loan to 5 1/4 per cent from the present rate of 4 1/2 per cent. It was brought out on the floor of the House during the discussion of this housing legislation that there are about 45,000 veterans on waiting lists for direct GI loans.

Taxes—Dividends on GI life insurance are exempt from federal income tax. The interest earned on such dividends left on deposit with the VA, however, is not tax free. Interest accumulations are taxable and should be reported on the 1958 Federal income tax returns. In short, divi-

dends and other proceeds from GI insurance are exempt from taxation. Only the interest on dividends is taxable.

Questions about the rights and benefits of veterans, servicemen or their dependents may be submitted for individual attention to the New York State Division of Veterans Affairs and the Ulster County Veterans Service Agency office located at 32 Main Street, Kingston.

Campanella Boy Is Cleared in Slaying of Man

NEW YORK (AP) — David Campanella, 15-year-old son of the former Dodger catcher, has been found free of any connection with a slaying in Brooklyn.

Actually, he was never in custody, according to Dist. Atty. Edward Silver.

No Resemblance

Silver said Friday several witnesses to the slaying saw young Campanella's picture in the paper — as a result of several scrapes he was in earlier this week — and thought there was resemblance to the killer. But when they saw him in a lineup they found no resemblance.

The slain man was 40-year-old Al Jaffe, who walked in on a holdup at a Brooklyn luggage shop early this month, scooped at the holdup man's gun as unreal, and was shot and killed. His slayer was identified as a Negro between 25 and 30.

Monday the Campanella boy was presented in Children's Court on a charge of being a juvenile delinquent. The charge arose from a street fight in which the boy took part.

Let Off With Warning

He was let off with a warning but soon afterward was charged again with juvenile delinquency in connection with a burglary at a drugstore. He will answer that charge March 11.

His father, Roy, a star catcher with the Los Angeles Dodgers until he was crippled in an auto accident last year, has been a leader in fighting juvenile delinquency.

Boston was the scene of the first use of ether in a major operation, in 1846.

ARTY FOOTWORK — William Morris of Los Angeles uses his feet besides his hands to complete a work at Copenhagen. He calls his art style "action expressionism."

Folding Doors Allow More Usable Space

More usable space indoors is definitely created by the use of folding rather than swinging doors. The choice of types and materials is so broad that any interior architecture can be satisfied. The selection runs from fabric-covered doors with steel inner framework to all kinds of wood veneers, evenly matched. The fabric-covered ones are of a wide variety of weaves and patterns, all washable. Folding doors fold inside the doorways and have no tracks in the floor. Their operation is easy and silent, and the initial installation costs are no more than swinging doors with hardware.

Varnished Woodwork Is Easy to Clean

Kitchen cabinets and paneling of wood can be very easy to clean, says one prominent western architect, if a couple coats of bar varnish are applied to the wood. Not only does this heavy varnish protect the wood from moisture and wear, but an occasional cleaning with a soft cloth is all the upkeep necessary. Woods that respond to this treatment particularly well are two old favorites in the kitchen: Douglas fir and western hemlock.

Useful Trick

Even a rank amateur should be able to nail up his own picture molding with this suggested aid. For uniform spacing between the molding and the ceiling, use a small wedge which can be inserted between the molding and the ceiling, holding the molding tightly in place while nailing it. A block and wedge are advanced for each nail driven. This insures a uniform space to hold the picture hook securely.

Cement Paint

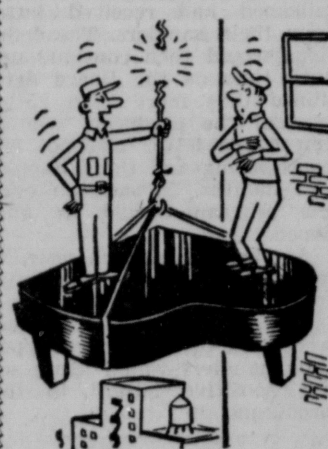

Cement paint may be applied to damp-masonry. Surfaces, in fact, should be moistened before application and the film should be kept moist for a few hours after it is applied, so that the chemical reaction between the cement and the water becomes complete.

Use Quality Paints

You can save money in using quality paints, especially for barns and fences. They wear longer and provide a good foundation for repainting. Be sure to use a primer on new wood before applying one or two coats of the chosen finish.

Putty for Staining

Wood putty containing 10 per cent white lead is recommended for use in filling nail holes and cracks when preparing interior wood for staining. Putty should be mixed with a small amount of stain before applying.

Fir or Hemlock Panels Effective for Walls

Flat grain panel boards of either Douglas fir or west coast hemlock are very effective for interior walls because of the incomparable grain patterns. To bring out the best in these woods when used as panel boards, they should be finished in clear lacquers or with light stains to allow the full beauty of the texture to develop.

Plaster Off Paint

If you get plaster droppings on paint: First, gently remove as much of the plaster as possible by lightly scraping, or with steel wool, being careful not to injure the paint or other surfaces. Next soak the area to be cleaned in a solution prepared of one part citric acid and nine parts water. When the stain is loosened, use rinsed out damp cloths to remove both the stain and the citric acid.

TIMEPIECE — Clockwatching becomes an artistic exercise with this new large clock for unusual wall decoration. The Japanese Torii (bird nest) tree design is of hand-painted silk and is 50 inches long. Made by a west coast firm, it's available in battery, electric or eight-day movements.

Paint Before You Need To

Experts say that the best time to paint a house is just before it really shows that paint is needed. That's the time when the job takes the least prepainting preparation. When you restore the protective coating which shows almost no damage, one coat will do the job of two later.

Mirror for Hall

Last-minute "fixing up" before you or your guests leave the house can be done right in the entrance hall. Why not install a large-size mirror under recessed lights for that quick inspection of make-up and clothes? Perhaps a small shelf or table under the mirror could hold combs, pins, lipstick and the like.

These Aids Necessary

A successful paint job is impossible unless the foundation work has been properly done on the surfaces. Have on hand wood filler. Also be prepared with putty, sprackling and caulking compounds. You will need these commodities for filling holes, glazing windows and filling cracks.

At the rear is a long room designed for a kitchen-dinette. The work area is, of course,

strictly modern. From the hand-

day counters around the sink, it's perfectly easy to serve persons sitting in the dinette. Or to step into the next if it has been made a dining room. A lavette is provided at the right.

As there are two other rooms used for sleeping, this room may be made into a den, sewing room or dining room. Or, if the family grows, it can be a bedroom.

Veterans Rights and Benefits Listed

Howard C. Shurtler, county director Veterans' Service Agency, and Charles L. Culver, state veterans counselor, NYS Division of Veterans Affairs, submit another in a series of articles on rights and benefits of veterans, servicemen and other dependents.

Civil Service—Applications for the following positions in the New York State Civil Service will be accepted up to March 6, 1959: Senior Civil Engineer (Design), Senior Landscape Architect, Senior Valuation Engineer, Assistant Valuation Engineer, Assistant Civil Engineer, Engineering Technician, Draftsman, Correction Officer, Male and Female, Correction Hospital Attendants, Librarian, Supreme Court Library, Kings County, Director of Research, State Commission Against Discrimination, Field Representative (In-

tercultural Education), Rehabilitation Counselor Trainee and Camp Supervisor, Westchester County which is open to legal residents of any county in New York State. Examinations for these competitive Civil Service positions will be held on April 4, 1959.

Legislation—Both the United States House of Representatives and the United States Senate passed legislation for veterans living in small towns and rural areas. The House passed bill proposes to make available to the Veterans Administration \$300 million for use in its direct loan program. The Senate passed bill approved \$150 million for the direct loan program. It is anticipated by reliable sources that the Senate and House Conference Committee will agree on a figure between \$200 and \$250 million for the direct loan program. Another important feature of this proposed legislation is an increase in the rate of interest on a GI loan to 5 1/4 per cent from the present rate of 4 1/4 per cent. It was brought out on the floor of the House during the discussion of this housing legislation that there are about 45,000 veterans on waiting lists for direct GI loans.

Taxes—Dividends on GI life insurance are exempt from federal income tax. The interest earned on such dividends left on deposit with the VA, however, is not tax free. Interest accumulations are taxable and should be reported on the 1958 Federal income tax returns. In short, divi-

dends and other proceeds from GI insurance are exempt from taxation. Only the interest on dividends is taxable.

Questions about the rights and benefits of veterans, servicemen or their dependents may be submitted for individual attention to the New York State Division of Veterans Affairs and the Ulster County Veterans Service Agency office located at 32 Main Street, Kingston.

Campanella Boy Is Cleared in Slaying of Man

NEW YORK (AP) — David Campanella, 15-year-old son of the former Dodger catcher, has been found free of any connection with a slaying in Brooklyn.

Actually, he was never in custody, according to Dist. Atty. Edward Silver.

No Resemblance
Silver said Friday several witnesses to the slaying saw young Campanella's picture in the paper — as a result of several scrapes he was in earlier this week — and thought there was resemblance to the killer. But when they saw him in a lineup they found no resemblance.

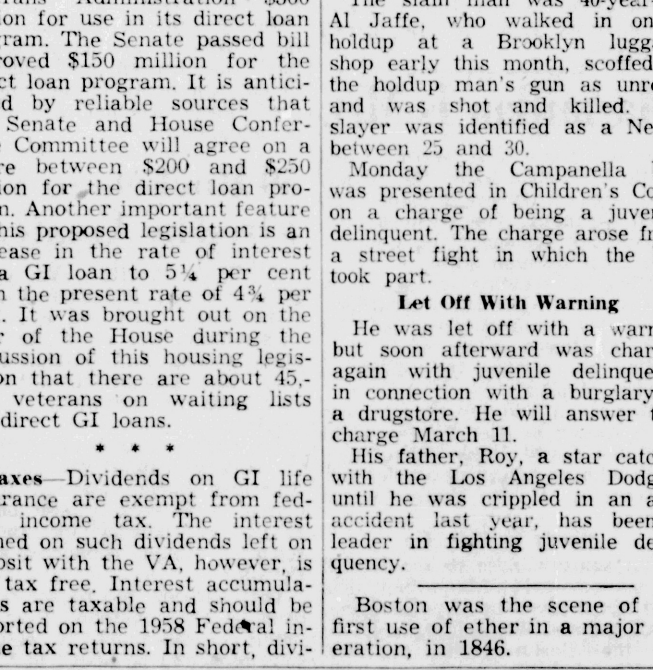

The slain man was 40-year-old Al Jaffe, who walked in on a holdup at a Brooklyn luggage shop early this month, scoffed at the holdup man's gun as unreal, and was shot and killed. His slayer was identified as a Negro between 25 and 30.

Monday the Campanella boy was presented in Children's Court on a charge of being a juvenile delinquent. The charge arose from a street fight in which the boy took part.

Let Off With Warning
He was let off with a warning but soon afterward was charged again with juvenile delinquency in connection with a burglary at a drugstore. He will answer that charge March 11.

His father, Roy, a star catcher with the Los Angeles Dodgers until he was crippled in an auto accident last year, has been a leader in fighting juvenile delinquency.

Boston was the scene of the first use of ether in a major operation, in 1846.

ARTY. FOOTWORK — William Morris of Los Angeles uses his feet besides his hands to complete a work at Copenhagen. He calls his art style "action expressionism."

Folding Doors Allow More Usable Space

More usable space indoors is definitely created by the use of folding rather than swinging doors. The choice of types and materials is so broad that any interior architecture can be satisfied. The selection runs from fabric-covered doors with steel inner framework to all kinds of wood veneers, evenly matched. The fabric-covered ones are of a wide variety of weaves and patterns, all washable. Folding doors fold inside the doorways and have no tracks in the floor. Their operation is easy and silent, and the initial installation costs are no more than swinging doors with hardware.

Varnished Woodwork Is Easy to Clean

Kitchen cabinets and paneling of wood can be very easy to clean, says one prominent western architect, if a couple coats of bar varnish are applied to the wood. Not only does this heavy varnish protect the wood from moisture and wear, but an occasional cleaning with a soft cloth is all the upkeep necessary. Woods that respond to this treatment particularly well are two old favorites in the kitchen: Douglas fir and western hemlock.

Useful Trick

Even a rank amateur should be able to nail up his own picture molding with this suggested aid. For uniform spacing between the molding and the ceiling, use a small wedge which can be inserted between the molding and the ceiling, holding the molding tightly in place while nailing it. Look and wedge are advanced for each nail driven. This insures a uniform space to hold the picture hook securely.

Cement Paint

Cement paint may be applied to damp masonry. Surfaces, in fact, should be moistened before application and the film should be kept moist for a few hours after it is applied, so that the chemical reaction between the cement and the water becomes complete.

Use Quality Paints

You can save money in using quality paints, especially for barns and fences. They wear longer and provide a good foundation for repainting. Be sure to use a primer on new wood before applying one or two coats of the chosen finish.

Putty for Staining

Wood putty containing 10 per cent white lead is recommended for use in filling nail holes and cracks when preparing interior wood for staining. Putty should be mixed with a small amount of stain before applying.

Fir or Hemlock Panels Effective for Walls

Flat grain panel boards of either Douglas fir or west coast hemlock are very effective for interior walls because of the incomparable grain patterns. To bring out the best in these woods when used as panel boards, they should be finished in clear lacquers or with light stains to allow the full beauty of the texture to develop.

Plaster Off Paint

If you get plaster droppings on paint: First, gently remove as much of the plaster as possible by lightly scraping, or with steel wool, being careful not to injure the paint or other surfaces. Next, soak the area to be cleaned in a solution prepared of one part citric acid and nine parts water. When the stain is loosened, use rinsed out damp cloths to remove both the stain and the citric acid.

Geertsema Proposes Boycott Against Firms Which Refuse Immunity Writ Before Jury

Councilman Tobie Geertsema (Ind) will submit to the special meeting of the Woodstock Town Board a resolution proposing a boycott against all firms which have refused to waive immunity when testifying about contracts before the Grand Jury.

"Such legislation is now pending before the state legislature and has received the endorsement of Attorney General Louis K. Lefkowitz," said Mrs. Geertsema.

"In the event it is not enacted by this session of the legislature, I feel we should have it on our books," Geertsema's resolutions, which would bar transactions with such firms for a period of five years, follows:

"Resolved, that for the purpose of effectively boycotting or penalizing from doing business with this township all firms, personnel, individuals, or contractors, furnishing goods or services, when questioned or called to testify about contracts by a Grand Jury, or in the course of other probes and trials, this Board will immediately contact Special Investigator Bernard Tompkins and ask him to place its request before the Special Grand Jury for a release list of the names of firms whose representatives refuse to testify before this same special Grand Jury concerning transactions with political subdivisions in Ulster County.

"And be it further resolved that it and when such list is released to this Board by the special Grand Jury all firms so named shall immediately forfeit the right to do business with the Town of Woodstock and shall be barred from so doing for a period of five years.

"And be it finally resolved that in future a clause be inserted in all contracts provided that the contract may be cancelled immediately on the refusal of a member of a firm or corporation doing business with the Town to testify as specified above.

Mrs. Geertsema's Planning Board resolution proposes the creation of a five-man board, the members of which shall serve terms ranging from one year to five years. The resolution follows:

"Resolved, The Town Board of the Town of Woodstock shall appoint a planning board of five members, such members to serve without compensation. Of the members first appointed to the newly created planning board, one shall hold office for the term of one year, one for the term of two years, one for the term of three years, one for the term

"Whereas, the president of the Woodstock Branch of the Bank of Orange County has stated that the taxes will be prohibitive to many citizens of Woodstock, unless the state legislature passes a special law allowing Woodstock to pay off her indebtedness over a three-year period, and,

"Whereas, the voice of the Town Board of Woodstock may be more clearly and effectively heard with the voices of several private citizens, and,

"Whereas, an audit of the books of former Woodstock District No. 2 School is urgently needed in justice to the taxpayers of Woodstock,

"It is hereby resolved that the Town Board of Woodstock send a request to the Department of Audit and Control at the state capital, asking for an immediate and thorough audit of the books of former Woodstock District No. 2 school."

Resolution on Expenditures
The McGrath Resolution reads: "Whereas, in the unfortunate financial situation of the Woodstock School, it has been gravely demonstrated that laxity on the part of the public can result in unwise management of public funds, and,

"Whereas it is a duty of the Town Board of Woodstock to see a wise and thrifty expenditure of the taxpayers' money, it is hereby resolved that all purchases in excess of fifty dollars be given the approval of a majority of the board members before said expenditures can be made,

"And it is further resolved that all bills of any nature to be paid by any portion of the government of the Town of Woodstock be placed prominently on display at every Town Board meeting for the convenience and perusal of interested citizens."

Legion Membership Is Near Record 134; New Flag Pole Ordered
American Legion Post No. 1026 of Woodstock admitted six persons to membership, boosting the Post total to 134, one of the highest figures in membership.

Admitted to membership at the February meeting Wednesday night at the Legion home were: Thomas Robinson and Leonard Korth of Woodstock; Donald Munro of Bearsville; Norman Shultis, Mt. Tremper; Arthur Boyce and Frank V. Lee of Kingston.

The Post voted to erect a new steel flagpole replacing the one wrecked by the heavy windstorm in January. Art Di Napoli is chairman of a three-man committee with charge of details. Working with him will be Tony DiAndrie and Benjamin F. Buley.

Commander Chester Gaede made further reports on the March 14th corned beef and cabbage dinner which is a traditional fixture on the Post's social calendar. More than 100 persons are expected.

Harry Cable and George Rowland are co-chairmen of the kitchen committee and were authorized to purchase \$50 worth of new equipment.

Post Gets Citations
Named to the Dinner Committee were John Harrison, Jack Chalmers, Al Hoffman and Tony DiAndrie. Joe Di Napoli and Frank Cable will be in charge of decorations.

Commander Gaede announced that Woodstock Post has been cited for two awards for its excellent membership drive. The citations will be received by Commander Gaede at Ulster County Legion meeting next Monday night at New Paltz.

The commander also called to the attention of Post members new information on the American Legion insurance policy. He urged all members to study the pamphlets available at the Legion Home.

The Post voted to take out advertisement space in the program published by Saugerties Memorial Post, V.F.W., in conjunction with the Loyalty Day program at Saugerties on Saturday, May 2.

Wayne Underhill, local chairman for The Mountaineers, Inc., made a plea for support of the Mountaineers project at Tupper Lake.

The meeting closed with a moment of silent prayer in tribute to the late Pete Olson, for many years custodian of the Legion building.

Art Students League Starts Drive for Funds
For the first time in its 83-year history the Art Students League of New York and Woodstock has instituted a fund drive for its program of rebuilding, it has been announced.

Many famous and distinguished paintings and sculptures which are to be exhibited at the League with a view to sale.

A private viewing was held on Feb. 15, after which the doors of the New York gallery were opened to the general public. The exhibition of these works is in two sections; the second one being held during the first two weeks of March.

Arnold Blanch and Doris Lee are among the artists whose works will be seen, proceeds from all sales to go to the League's fund. Others include such distinguished names as Charles Alston, Will Barnet, Robert Angeloch, Cameron Booth, Louis Bosa, Henry Botkin, Louis Bouché, Richard Bove, Byron Browne, John Brockman, Byron Brockman, John Carroll, Minna Citron, Mario

Sends \$300 to Bus Co. As Conscience Money

ROCHESTER, N. Y. (AP) — Somebody with a troubled conscience has sent the city's bus company \$300, the most conscience money it ever received.

The letter, postmarked from a western state, contained an unsigned note and three \$100 bills. The note read simply: "Conscience fund."

William A. Lang, president of the Rochester Transit Co., said the money would go into the employees' welfare fund. He said the person probably felt that he had got the money on a false job claim.

TVA Is Ignoring Protests on Pact For Big Turbine

KNOXVILLE, Tenn. (AP) — The Tennessee Valley Authority is ignoring the furor over its award of a \$12,095,800 contract to a British firm for a giant steam-turbine generator.

U. S. senators and congressmen from New York and Pennsylvania, the General Electric Co., Schneid, N. Y., and Westinghouse Electric Corp., Pittsburgh, Pa., have protested the award.

GE and Westinghouse have asked the Office of Civil Defense Mobilization to upset the TVA decision on the ground that national security was involved.

Both companies submitted bids approximately 5 1/2 million dollars higher than that accepted from C. A. Parsons & Co. Ltd. of New Castle, England.

On the point of security, TVA said in a statement, Parsons "has the plant, equipment, skills and manpower necessary to build and service a reliable machine."

Railroad Inspector Found Dead in Car

BUFFALO, N. Y. (AP) — Edward Cryan, 46, of suburban Sloan died of carbon monoxide poisoning Friday. His body was found in his automobile in the garage at his home.

Rocco N. Dedominicis, Erie County medical examiner, said he would issue a certificate of accidental death.

He said Fry, a car inspector for the New York Central Railroad, drove home and apparently fell asleep before turning the motor off.

Toll Rates On Seaway Due on 4th

OTTAWA (AP) — Shipping tolls for the St. Lawrence Seaway will be announced next Wednesday in Ottawa and Washington, D. C., it was reported last night.

The tolls are designed to pay for the 471-million-dollar project over the next 50 years. It was built jointly by Canada and the United States.

A committee of experts recommended the toll rates last June 18. Among the recommendations was one that domestic package freight rates be lower than similar foreign shipping.

Subject to Review
The toll committee's recommendations were subject to review by the St. Lawrence Seaway Authority and the U. S. St. Lawrence Seaway Development Corp.

The proposed tolls would produce an estimated \$20,800,000 a year for Canada and \$7,200,000 for the United States. Canada has paid close to 340 million for the Seaway project, the U. S. 131 million.

Proposed Schedule
The committee's proposed schedule included:

1. Between Montreal and Lake Ontario, 4 cents a ton on a vessel's gross registered tonnage plus 40 cents a ton on bulk cargo and 90 cents a ton on general cargo. For partial transit on this stretch that has seven locks, 15 per cent of the total toll for each lock.
2. For the Welland Canal, 2 cents a registered ton plus 2 cents a ton for bulk cargo and 5 cents a ton for general cargo. Partial transit would be 50 cents a ton.
3. A charge of 50 cents a ton for pleasure passenger for each lock.
4. Pleasure craft would pay a minimum of \$2 a lock.

State Employees To Press for Hike, Benefits

AUBURN, N. Y. (AP) — A union official says a group of unionized state employees will converge on Albany Monday to press for higher wages and other benefits.

Albert T. Maloney, secretary of a union that represents correction officers at Auburn Prison, said Friday the group would include members of 45 locals throughout the state. The locals are affiliated with New York State Employees Council 50.

Albany, John E. Powers, president of the State Civil Service Employees Assn., said his organization would have no part of the demonstration. The association claims its membership includes most of the state's 90,000 civil service employees.

Maloney said the council seeks a \$950 across-the-board increase, state-paid life insurance and what he termed equal pay for equal work.

Man Is Acquitted In Knife Slaying Of Girl, Landlord

BUFFALO, N. Y. (AP) — Spear Ingram, a migrant worker, has been acquitted of a second-degree murder charge in the slaying of his girl friend and their landlord.

An Erie County jury of 11 men and one woman returned the verdict Friday night after deliberating seven hours.

Ingram, 49, took the stand during the two-day trial and testified that he killed the two in self-defense.

His girl friend, Miss Elaine Stokes, 38, was found dead of multiple stab wounds Nov. 15 in the apartment where she and Ingram lived together. Their landlord, Willy McCall, 45, died several days later of 37 stab wounds.

The prosecution contended that the victims were stabbed viciously many times and not in self-defense.

Ingram said that when he found the two together in his apartment they both tried to attack him.

State police arrested Laverne L. Truheart, 18, also of West Rupert, driver of the car, on a charge of operating a vehicle with insufficient lights.

Favors More Aid For Waterways In This Country

NEW YORK (AP) — Sen. Allen J. Ellender (D-La.) says he favors more aid for development of waterways in this country.

Ellender, chairman of the Senate Public Works Subcommittee, said Friday that unless America's water resources are protected, "some day many parts of our great country may become as barren as the Gobi Desert."

At the 49th annual luncheon of the New York State Waterways Assn. he called attention to the 525-mile New York State Barge Canal system. The senator said: "There is a real need for a modern barge canal system."

He added that a state constitutional amendment was being sought to permit the state legislature to lease or transfer the Barge Canal to the federal government.

The St. Lawrence Seaway, Ellender said, would "doubtless generate new enterprises and activities which may make your canal system even more vital to the continued growth of the state and nation."

He said, however, he did not think the proposed Richelieu waterway, which would link the Hudson River to the St. Lawrence River by way of Lake Champlain, was "immediately necessary."

Sign Language Wins Divorce for Deaf-Mute

ALBANY, N. Y. (AP) — Mrs. BEATRICE CARPENTER, a deaf-mute, used sign language to tell a judge her husband was unfaithful. She won a divorce.

Mrs. Carpenter accused her husband, Alonzo Sr., also a deaf-mute, of adultery, the only ground for divorce in New York. Her tale of woe was interpreted Friday by her son, Alonzo Jr.

The couple was married in 1931. None of their three children are deaf-mutes.

Mrs. Carpenter lives in Castle-on-Hudson in Rensselaer. Justice Herbert D. Hamm of State Supreme Court granted the divorce. He called the sign-language trial unprecedented.

Fort Edward Man Cleared in Auto Insurance Fraud

HUDSON FALLS, N. Y. (AP) — Charles Caputo of Fort Edward, an automobile dealer, has been cleared of charges that he helped defraud insurance companies through false automobile damage claims.

A Washington County Court jury found Caputo innocent Friday of charges of conspiracy, grand larceny and fraudulent claims. His trial opened Feb. 10.

Caputo and 23 other persons were indicted last October. Dist. Atty. John Leary said at the time they had collected \$60,000 from insurance companies by faking accident claims.

Joseph V. Riley of Glens Falls, a former insurance adjuster, was sent to prison for 2 1/2 to 5 years after he pleaded guilty to charges of conspiracy, grand larceny, filing fraudulent claims and making fraudulent collections.

Seventeen other men who pleaded guilty were given suspended sentences. Others still are awaiting trial.

50 Planes to Sleigh For Missing Flier

GAYLORD, Mich. (AP) — Approximately 50 aircraft take off from Otsego County airport today to search for a pilot whose private plane disappeared last Sunday.

M. Sgt. Frank Wyman of Batavia, N. Y., was enroute from Saginaw, Mich., to Kinross Air Force Base near Sault Ste. Marie. Searchers said they had two possible leads to investigate. One was a sketchy report of wreckage sighted from the air near Rose City in the Gaylord vicinity. The other was a report from two farm boys near Pellston, 40 miles northwest of here, that they saw a plane trailing smoke Sunday afternoon.

McGrath Resolution Urges Board Action on No. 2 Audit

Resolutions proposed by Justice of the Peace Dixon McGrath at the Town Board meeting in Woodstock Thursday night included one which petitioned the Town Board to throw its weight behind requests for a state wide audit of former Woodstock No. 2 school district's finances.

"These resolutions were not acted upon at the Board meeting, since they had not been defined on the official agenda. They will be taken up at a special meeting within 10 days.

Another resolution requested that:

"Be it resolved that the Superintendent of Highways be requested not to spend more than \$1129 per gallon for gasoline for town use during the year 1959, and that, if possible he purchase it from an Ulster County firm."

The third resolution proposed that "any purchases in excess of 50 dollars be given the approval of a majority of the board members before said expenditures can be made."

The resolution on the petition for a state audit of the school books reads:

"Whereas, the Ontario Central School Board of Education has announced that the school district formerly called Woodstock No. 2 is in debt approximately \$1,000,000, and

"Whereas, the taxpayers of Woodstock have innocently incurred this debt through no active fault of their own, and,

"Whereas, a member of the Ontario School Board has stated

that if an audit is made, she

hopes that the debt will be no larger, though she is not sure that will be the case, and,

"Unsuccessful To Date

Board has been unsuccessful in its efforts to effect a speedy audit of the Woodstock school books by the State Department of Audit and Control, and,

"Whereas, the president of the Woodstock Branch of the Bank of Orange County has stated that the taxes will be prohibitive to many citizens of Woodstock, unless the state legislature passes a special law allowing Woodstock to pay off her indebtedness over a three-year period, and,

"Whereas, the voice of the Town Board of Woodstock may be more clearly and effectively heard with the voices of several private citizens, and,

NEW YORK (AP)—Men's wear retailers with an eye out for something new that will induce the hardy male to part with a few bucks are pinning their hopes on the "Continental."

Styled in sunny Italy, the continental suit is popping up in a few selected men's apparel shops this spring, vying for attention with the still popular Ivy.

Men, among the most conservative of this earth's creatures, are looking and comparing but they aren't buying yet. At least, not many are buying.

Retailers hope the fad will start to catch on next fall.

"If this thing works out, you'll see a rash of buying by October," says one. "By the spring of 1960 we'll be well into a fashion craze that should sweep the nation."

Leslie F. Vail, president of a men's apparel chain, sees a great future for the Continental suit

among rising executives who he says have literally and figuratively outgrown Ivy.

In case you haven't seen one, the jacket is one to one-and-a-half inches shorter than that of the Ivy or conventional "American lounge." It has squared shoulders, narrow, peaked lapels, pockets that slant backwards, and a cut-away front. The most popular style has two front buttons and side vents.

Unlike the straight hanging Ivy or the bulky American lounge, the Continental follows the contours of the body — and the contours are those usually associated with business success, plenty of nourishing food and drink, not too much physical exercise, and middle age.

The jacket's lower half artfully conceals any incipient bay window. From that point down, the front is cut back sharply. The over-all effect is one of worldly sophistication and youthful slenderness. Pants are pleated, tapered and without cuffs.

Science Fair Will Be Held in May For Grade Children

The Mid-Hudson School District Council is planning a science fair for elementary schools to be held at the New Paltz State University Teachers College May 1 and 2.

The Kingston Schools are an active member of this group. Dick Mason, head of the science department of the Kingston High School faculty, is the science representative to the Mid-Hudson Council.

The elementary principal's cabinet, composed of all elementary principals, supervisors and superintendents, has voted to participate. It was decided to first hold a science fair in each of the local schools during the week of April 12. All children in fourth, fifth and sixth grades will be given the opportunity to enter scientific experiments individually or in groups. The winners from each school will go to the Mid-Hudson Fair to compete.

Miss Anna Whitbeck of School No. 2 has been selected as chairman of the committee. She has

stated that all projects may be based on either one of the ten basic areas of science as recommended by State Educational Department or a creative one outside given area.

Miss Sadie Lutzin of School No. 5 is publicity chairman. The cabinet has appointed the following teachers to head the committee in their respective schools:

Garrett B. Vandemark, School No. 2; Leon Hobbs, School No. 3; Marion Schwenk, School No. 4; Sadie Lutzin, School No. 5; Stephen Walegurski, School No. 6; Esther Blumenthal, School No. 7; Adelaide Van Wageningen, School No. 8; Annette Roosa, G.W. School; Marguerite Norman, G.W. School; Peter Dyschuk, Lake Katrine School; Frank Ebelheiser, Hurley School; Beulah Harvey, Tillson School; Corrine Feinstein, Port Ewen School; Edward Hicks, Port Ewen School; Donald Rafferty, Chambers School.

A meeting of the science fair committee of the Kingston Consolidated School District will be held at the George Washington School Tuesday, March 3. Plans for this event will be formulated at this time for the entire consolidated district.

PREFERS NON-ALCOHOLIC DRINKS

Dear Mrs. Post: When a person is invited to a party where liquor is served and he (or she) doesn't care for anything strong, is it poor etiquette to ask the hostess, or host, for a non-alcoholic beverage even though there is no alternative on the tray?

Answer: I have always insisted that a hostess must have a non-alcoholic beverage for those of her guests who may not want a strong drink. However, if none is proffered, you cannot really ask for one. The only thing you can ask for is a glass of water. Then the hostess could say, "Would you like some lemonade, tomato juice" or whatever she may have that is non-alcoholic.

The Secret of a Bride's Dress

Dear Mrs. Post: Do you think it is correct for the bride to keep the kind of wedding dress she is to wear a secret from the groom's mother and when asked about it, to be told it is a secret? The groom's parents were very hurt and felt they weren't treated like family, but like strangers. Please give me your opinion and settle a long debated question.

Answer: It has long been customary for a bride to keep her dress a secret and there is no reason for her future mother-in-law to feel left out because she is not told about it.

A Childhood Friend Is Now a Doctor

Dear Mrs. Post: At a recent wedding I met an old school chum of mine who is now a doctor. Most of the guests addressed him as "Doctor" but I called him by his given name, for which I was severely criticized. I think I was perfectly right to do this and would have felt extremely self-conscious in calling someone with whom I grew up and always called by first name, Doctor, even though I hadn't seen him in years. I would like your opinion on this.

Answer: In speaking of him to others you most certainly should say Doctor Smith, but in speaking to him personally, you were right to use John as you have since childhood.

Mrs. Post offers readers leaflets on a variety of subjects concerning etiquette. If you would like to have her leaflet E-6, entitled "What to Wear at Wedding Receptions," send 10 cents in coin to Dept. EP, care of The Kingston Daily Freeman, P. O. Box 99, Station G, New York 19, N. Y. Mrs. Post is sorry she cannot answer personal mail. (Released by The Bell Syndicate, Inc.)

First Aid Squad

A spokesman for the Ellenville First Aid and Rescue Squad has listed rules for securing the services of the squad in case of accident or emergency. "The squad receives its calls from three sources — medical doctors, state police and the Ellenville Police Department. These agencies have complete knowledge of the proper procedure for summoning the squad. Calls from any other channel will only result in confusion or delay," he said.

The squad recommends the

following procedure in case of highway accidents. "Be sure to give the police the exact location, the number of cars and victims involved as nearly as possible, your name, and the telephone number from which you are calling. All these details are important."

In case of medical emergency the group recommends calling a doctor. "Be sure to give the doctor (if this is not one of his regular patients) the approximate size of the person and his location on the premises, for example, first or second floor. This assists the squad if it is sent by the doctor in selecting sufficient trained volunteer personnel and equipment. If an accident or emergency exists and neither of the aforementioned apply, call Ellenville 1000 and state the nature of the emergency and the exact location."

Thursday evening, Feb. 19, official delegates from the Ellenville First Aid and Rescue Squad attended the regular meeting of the fifth district New York State Volunteer Ambulance and First Aid Association at the Cornwall Hospital, Cornwall.

Legion Plans Dinner
And Dance on May 16

HIGHLAND—A continuous membership dinner and dance will be sponsored by Lloyd Post 193, American Legion, Saturday, May 16, at the Oddo House. Guests for the night will be 40 year continuous membership members and include Mrs. Marian Richards, Edgar Boyce, Walter Clark, George Hildebrand, Harold Lent, John V. Miller, Charles I. Richards, Royal Reed, Walter R. Seaman, Philip T. Schantz. The Post hopes to have 100 per cent membership at the time of the dinner. Robert Russo is membership chairman.

Lloyd Post will cooperate with the Hudson-Champlain committee. Commander George Bragg is their representative at the committee meetings. Also the Post will give its support to schoolboy regatta. It is a part of the celebration. Auditions for the Legion amateur night will be held Monday at the high school 7:30 p. m. Philip Pampinella is chairman. The date for the performance is Friday, April 3, in the school auditorium. Tickets are available from members of the Post and Auxiliary with Joseph Martorana, chairman. Plans are already being made for the Legion barbecue, Sunday, Aug. 2, at the Legion home, Vineyard Avenue. The chairman is Dominick Martorana.

Lewis DiStasi is chairman for the flag-selling campaign assisted by Mrs. Bertha DiLorenzo for the Auxiliary. Members of the Post and Auxiliary unit will visit each family and business place in the Town of Lloyd to take orders for the new 49-star flag. In connection with the Hudson-Champlain

festivities Lloyd Post and unit will observe July 4 by requesting a mass display of the flag throughout the town, as that is the first official day for displaying the flag. On that same date there will be a mass burning of old flags with patriotic speeches by guests. Commander George Bragg and Mrs. Elaine Murphy are chairmen.

Legion Auxiliary

At the last meeting of Lloyd Unit 193, Legion Auxiliary, the members volunteered their services to the Hudson-Champlain committee and school boy regatta committee.

A donation was sent to the Albany Veterans Hospital for a party for the patients. The matter of assisting at one of the parties later in the year was discussed. The donation of \$10 was made to the Blue Angel fund, an American Legion Auxiliary project, headed by the department president. Funds received from units throughout the state are sent to a hospital in New York to maintain a heart machine.

The report of the county meeting was given by Florence Bragg delegate, Mrs. Mildred Garguilo, chairman and by the welfare committee, Mrs. Bragg also reported on the school boy rowing meet and Elaine Murphy reported on the Hudson-Champlain committee meeting.

Chairman Eleanor Ruzzo made it known that 28 hours were given by Auxiliary members on the Blue Crutch Polo drive and four and a half hours given to the mothers march. The executive committee reported on plans for the observance of the American Legion's 40th birthday. A joint meeting has been held. The Auxiliary will serve refreshments. The county meeting will be held March 18 in Highland. Mrs. Bertha Bragg volunteered to be refreshment chairman. Mrs. Tessie Visconti is chairman for a candy sale.

Catholics to Hear
Of Bishops' Fund
Appeal on Sunday

Marking the start of the 1959 Bishops' Relief Fund Appeal in the 400 parishes of the New York Archdiocese, a plea on behalf of the "millions of suffering, sorrowing, homeless and oppressed peoples of Europe, Africa, the Near and Far East", is voiced by Francis Cardinal Spellman, Archbishop of New York, in a pastoral letter to be read in all Catholic churches of the New York Archdiocese Sunday.

The Cardinal urges support of the Bishops' Fund which will culminate March 8 with an envelope collection.

Referring to the millions of destitute peoples of other countries the Cardinal said that he knows their "desperate need for clothing, shelter, food, medicines and prayers", for through the years he has personally "witnessed the terrifying, almost unbelievable, unbearable miseries of the sick and destitute of these lands."

"I have personally," Cardinal Spellman continues, "seen the great good which the Catholic Bishops' Relief Fund has been able to accomplish for the poor and stricken of these countries because of your great generosity to this world-embracing organization."

The pastoral in full follows: "Once again I beg your merciful assistance for millions of suffering, sorrowing, homeless and oppressed peoples of Europe, Africa, the Near and Far East. I know their desperate need for clothing, shelter, food, medicines . . . and prayers; for through the years I personally have witnessed the terrifying, almost unbelievable, unbearable miseries of the sick and destitute of these lands. I have also personally seen the great good which the Catholic Bishops' relief fund has been able to accomplish for the poor and stricken of these countries because of your great generosity to this world-embracing organization."

Pity Is a Grace
"Pity is a grace that stirs us to sadness because of the misfortunes and miseries of our neighbors—wherever and whenever they may be. Pity is spontaneous in noble souls, making them kin to the grieving and suffering, the abandoned and orphaned emkindling within them the Godly incentive to give generously of their time, their energies, their material and spiritual resources."
"I am fully aware, dearly beloved, how pity for the anguished has inspired you to multiply deeds of Christly charity to help the grieving, the sick and heavily burdened of the world. And I know your hearts' compassion for God's destitute has been matched by your loyalty and charity to the Catholic Bishops' relief fund. Prayerfully I beg you, when the collection is taken up Sunday, to continue your blessed help, because without it, this providential organization cannot continue its Christly mission among the world's afflicted, who, without your selfless assistance cannot long survive."

Victory crowns them as the unofficial champions of the eastern United States and the outstanding contender for state and national forensic titles. Jamestown winner of 10 of 12 debates met undefeated Mount St. Michaels in the final honor round. By a split decision they reversed an earlier loss to take home the first place cup. Mount St. Michaels finished second, Manhattan Prep was third.

In addition to a loss to Jamestown the Sawyers also dropped decisions to three other schools. They were able to gain only two decisions at the expense of Champlain and Arch Bishop Malloy. This was the first year Sauterites had made the finals, from a field of 76 competing schools.

Representing the blue and white hopes were Carolyn Roesser, Nancy Overbaugh, Hannah McLennan and Paul Kruger.

Jamestown's triumph was some consolation to local debaters as their capture of first place marks the first time an upstate school has broken the long-standing monopoly of metropolitan teams.

Nearly 600 Dogs
In the Township
Are Unlicensed

Nearly 600 dogs in the Town of Saugerties are still unlicensed, according to Town Clerk Miss Marian Newkirk.

Residents harbouring dogs which are unlicensed should report to the town clerk's office, Main Street, Saugerties, immediately in order to avoid the \$10 fine and issuance of summonses.

Residents whose names appear on the enumeration lists who no longer own dogs should report to the town clerk to have their names dropped from the list, she said.

The town clerk's office is open daily from 9 to 4:30 and Saturdays from 9 to 12 noon.

Dog owners whose names may have been inadvertently omitted from the enumeration list must also secure licenses for their dogs, she said.

Jaycees Sponsor
Script Writing
Test for Seniors

The Saugerties Junior Chamber of Commerce will sponsor a script writing contest for high school seniors on the theme "My True Security" in March.

Contestants will prepare a three to five minute script for oral delivery on self reliance and individual initiative. The Jaycee committee is headed by Donald Patterson, assisted by Malcolm Bump, director of debate at Saugerties High School.

The contest winners will receive medals and the school finalist will have his or her speech tape recorded for entry in statewide competition. The material will be largely judged on originality and content rather than delivery, instructions from the national office indicated. All local students will see a movie "The Two Wheeled Bike" before writing the script. Final elimination is tentatively planned as part of a school assembly March 11.

ings as indicated in the following extract from the Education Law.

"The building space allowed to any group will be in proportion to the size of the group, as it is impractical and uneconomical for a small group to use auditorium or gymnasium facilities."

"The Board of Education reserves the right to rescind permission granted for the use of the building to any program up to 24 hours of program time. The board also reserves the right to waive any fees or increase them in certain instances."

"Adult smoking in the building is limited to the faculty room, cafeteria, and corridors adjacent to auditorium and gym. Groups should plan to limit their meetings so that buildings may be closed at 11 p. m. unless special permission is granted for extension of time."

"No unauthorized group unable to assume financial responsibility may be considered for use of the buildings."

"No fees shall be charged for use of the auditorium, gyms, classrooms, except when admission will be levied by the requesting organization or group."

In preparing these regulations the Board of Education holds that the primary purpose of the school buildings of the district is to provide for the education of the children. Above and beyond this the board wishes to make the buildings available so far as possible to promote the culture of all citizens of the district.

The cafeteria may be used by an organization only provided that a regular cafeteria worker from the staff has been assigned and is present and paid for services. Services shall be paid by the organization to the district treasurer as the school district pays the cafeteria worker direct. The number of cafeteria workers in each case shall be determined by the cafeteria director.

Banquets shall be prepared and served only by the school cafeteria staff under the direction of the cafeteria manager.

The reimbursement rate for cafeteria workers are available at the office.

No kitchen equipment may be used except by the cafeteria personnel.

Smoking is not allowed in the cafeteria area except by special arrangements with the cafeteria manager and on occasions when ash trays are provided. (Never during school hours.)

At the last meeting of Lloyd Unit 193, Legion Auxiliary, the members volunteered their services to the Hudson-Champlain committee, headed by the department president. Funds received from units throughout the state are sent to a hospital in New York to maintain a heart machine.

The report of the county meeting was given by Florence Bragg delegate. Mrs. Mildred Gargiulo, chaplain, and by the welfare committee. Mrs. Bragg also reported on the school boy rowing meet and Elaine Murphy reported on the Hudson-Champlain committee meeting.

Chairman Eleanor Russo made it known that 28 hours were given by Auxiliary members on the Blue Crutch Polio drive and four and a half hours given to the mothers march.

The executive committee reported on plans for the observance of the American Legion's 40th birthday. A joint meeting has been held. The Auxiliary will serve refreshments. The county meeting will be held March 18 in Highland. Mrs. Bertha Bragg volunteered to be refreshment chairman. Mrs. Tessie Visconti is chairman for a candy sale.

Catholics to Hear
Of Bishops' Fund
Appeal on Sunday

Marking the start of the 1959 Bishops' Relief Fund Appeal in the 400 parishes of the New York Archdiocese, a plea on behalf of the "millions of suffering, sorrowing, homeless and oppressed peoples of Europe, Africa, the Near and Far East," is voiced by Francis Cardinal Spellman, Archbishop of New York, in a pastoral letter to be read in all Catholic churches of the New York Archdiocese Sunday.

The Cardinal urges support of the Bishops' Fund which will culminate March 8 with an envelope collection.

Knows Desperate Need

Referring to the millions of destitute peoples of other countries the Cardinal said that he knows their "desperate need for clothing, shelter, food, medicines and prayers," for through the years he has personally "witnessed the terrifying, almost unbelievable, unbearable miseries of the sick and destitute of these lands."

"I have personally," Cardinal Spellman continues, "seen the great good which the Catholic Bishops' Relief Fund has been able to accomplish for the poor and stricken of these countries because of your great generosity to this world-embracing organization."

The pastoral in full follows: "Once again I beg your merciful assistance for millions of suffering, sorrowing, homeless and oppressed peoples of Europe, Africa, the Near and Far East. I know their desperate need for clothing, shelter, food, medicines and prayers; for through the years I personally have witnessed the terrifying, almost unbelievable, unbearable miseries of the sick and destitute of these lands. I have also personally seen the great good which the Catholic Bishops' Relief Fund has been able to accomplish for the poor and stricken of these countries because of your great generosity to this world-embracing organization."

Pity Is a Grace
"Pity is a grace that stirs us to sadness because of the misfortunes and miseries of our neighbors—wherever and whenever they may be. Pity is spontaneous in noble souls, making them kin to the grieving and suffering, the abandoned and orphaned, enkindling within them the Godly incentive to give generously of their time, their energies, their material and spiritual resources."

"I am fully aware, dearly beloved, how pity for the anguished has inspired you to multiply deeds of Christly charity to help the grieving, the sick and heavily burdened of the world. And I know your hearts' compassion for God's destitute have been matched by your loyalty and charity to the Catholic Bishops' Relief Fund. Prayfully I beg you, when the collection is taken up Sunday, to continue your blessed help, because without it, this providential organization cannot continue its Christly mission among the world's afflicted, who, without your selfless assistance cannot long survive."

Woman Is Injured
As Car Hits Porch

Police reported early today that Margaret Harvey, 30, of 46 Locust Avenue, was treated at Kingston Hospital for a head injury suffered when the car in which she was riding struck a porch on Lincoln Street.

A blotter notation said Robert Harvey, 30, same address, reported to headquarters that a car he was driving skidded on ice and struck the porch of William DeCicco, 200 Lincoln Street.

The car was reported damaged on the entire front end.

Light Opener Aids Declarer

BY OSWALD JACOBY
Written for NEA Service

East's opening club bid was a real cream puff. He won the opening club lead with the ace and shifted to the three of hearts. South played the seven and West won with the jack. He returned the suit and East's queen fell to South's ace.

South played a trump to dummy, ruffed a heart, played another trump to dummy, ruffed the last heart, discarded a diamond on the king of clubs and was now ready to attack the diamond suit.

He used East's opening bid as a means to tell him how. East needed both the ace and jack of diamonds for his opening bid so South simply led a diamond to dummy's queen. East won with the ace and was end-played. A club lead would give declarer a ruff and discard while a diamond lead would be allowed to run around to dummy's ten spot. South kidded East about his light opening bid but the last laugh was East's. The game was team of four and the other East player chose to pass his hand.

B of E Releases
Regulations for
Use of Buildings

Organizations in the local school district who wish to submit requests for use of any one of the buildings were asked today by the Board of Education to send such requests in writing to the Business Manager Patrick Rodden, at the Board of Education building on Hill Street.

These requests should be submitted in the regular printed form which will be provided by the business manager. They call for the following information: name of organization; name of building to be used; date; hours; purpose; list of special equipment needed; and if use of the cafeteria is requested, a statement of the equipment needed.

Following are some statements taken from the application blank:

"Rental fees are to be paid directly after use of the property. Make checks payable to Saugerties Central School District No. 1, and send to Office of Treasurer, Saugerties Central School District, Hill Street, Saugerties. The rental fee covers all costs of custodial service, heat, and light, and use of equipment unless otherwise stated." A schedule of fees is available at the office.

"It is the desire of the Board of Education to grant the privilege of using the building to those organizations or groups that will comply with the law and will benefit the general welfare of the community educationally and recreationally. It is also the opinion of the Board of Education that where it is possible, such organizations, except those directly connected with the educational interests of the school, should pay the added expense such as costs of lighting, heating, and custodial service necessary to make possible the use of building."

"The Board of Education in granting the use of school building or of school rooms is governed by Section 414 of the Education Law and Section 4 of Article XI of the New York State Constitution. Under these sections the Board of Education may permit the use of the building

SAUGERTIES NEWS

Nearly 600 Dogs
In the Township
Are Unlicensed

Nearly 600 dogs in the Town of Saugerties are still unlicensed, according to Town Clerk Miss Marian Newkirk.

Residents harbouring dogs which are unlicensed should report to the town clerk's office, Main Street, Saugerties, immediately in order to avoid the \$10 fine and issuance of summonses.

Residents whose names appear on the enumeration lists who no longer own dogs should report to the town clerk to have their names dropped from the list, she said.

The town clerk's office is open daily from 9 to 4:30 and Saturdays from 9 to 12 noon.

Dog owners whose names may have been inadvertently omitted from the enumeration list must also secure licenses for their dogs, she said.

Jaycees Sponsor
Script Writing
Test for Seniors

The Saugerties Junior Chamber of Commerce will sponsor a script writing contest for high school seniors on the theme "My True Security" in March.

Contestants will prepare a three to five minute script for oral delivery on self reliance and individual initiative. The Jaycee committee is headed by Donald Patterson assisted by Malcolm Bump, director of debate at Saugerties High School.

The contest winners will receive medals and the school finalist will have his or her speech tape recorded for entry in statewide competition. The material will be largely judged on originality and content rather than delivery, instructions from the national office indicated. All local students will see a movie "The Two Wheeled Bike" before writing the script. Final elimination is tentatively planned as part of a school assembly March 11.

Sawyers Downed Early;
Jamestown Wins Title

Jamestown again! Saugerties' arch nemesis from the West, trampled Sawyer hopes and that of 16 other finalists last week in the New York University Hall of Fame High School debate finals.

Victory crowns them as the unofficial champions of the eastern United States and the outstanding contender for state and national forensic titles. Jamestown winner of 10 of 12 debates met undefeated Mount St. Michaels in the final honor round.

By a split decision they reversed an earlier loss to take home the first place cup. Mount St. Michaels finished second, Manhattan Prep was third.

In addition to a loss to Jamestown the Sawyers also dropped decisions to three other schools. They were able to gain only two decisions at the expense of Champlain and Arch Bishop Malloy. This was the first year Saugerties had made the finals, from a field of 76 competing schools.

Representing the blue and white hopes were Carolyn Roesser, Nancy Overbagh, Hannah McLennan and Paul Kruger.

Jamestown's triumph was some consolation to local debaters as their capture of first place marks the first time an upstate school has broken the longstanding monopoly of metropolitan teams.

The attendance of Mrs. Elinor Lente, head of the language department of Saugerties High School was authorized at North-East Conference on Languages at Washington, D. C. on April 17-19.

A meeting of the voters of the former Mount Marion District at an early date was approved by the board for determining the disposal of the old one-room school building at that location.

A meeting of the teachers committee of the Board of Education has been set for sometime next week to study the local salary schedule.

Town Notes

Frank L. White, secretary-treasurer of Saugerties Savings Bank is convalescing at Kingston Hospital following surgery Thursday.

Mr. and Mrs. Nathan A. Aesch of 382 Main Street returned this week from a Mediterranean cruise. They visited the Canary Islands, the French Riviera, Italian Riviera, Gibraltar, Casablanca and Rabat.

Catskill Justice of the Peace Oreste Vincent will be the guest speaker at the Cementon Sportsmen's Club annual banquet Saturday, March 7 at Phelan's Hotel, Leeds.

Stratton Would Cut
Down Glove Imports

WASHINGTON (AP)—Glove imports would be limited to 50 per cent of American production, under terms of a bill introduced by Rep. Samuel S. Stratton (D-N.Y.). Stratton's proposal would apply both to leather and knit gloves.

The lawmaker's district includes Gloversville and Johnstown, N. Y., center of the domestic glove industry, which has been hit hard by imports.

The building space allowed to any group will be in proportion to the size of the group, as it is impractical and uneconomical for a small group to use auditorium or gymnasium facilities.

"The Board of Education reserves the right to rescind permission granted for the use of the building to any program up to 24 hours of program time. The board also reserves the right to waive any fees or increase them in certain instances.

"Adult smoking in the building is limited to the faculty room, cafeteria, and corridors adjacent to auditorium and gym. "Groups should plan to limit their meetings so that buildings may be closed at 11 p. m. unless special permission is granted for extension of time.

"No unorganized group unable to assume financial responsibility may be considered for use of the buildings.

"No fees shall be charged for use of the auditorium, gyms, classrooms, except when admission will be levied by the requesting organization or group."

In preparing these regulations the Board of Education holds that the primary purpose of the school buildings of the district is to promote the education of the children. Above and beyond this the board wishes to make the buildings available so far as possible to promote the culture of all citizens of the district.

The cafeteria may be used by an organization only provided that a regular cafeteria worker from the staff has been assigned and is present and paid for services. Services shall be paid by the organization to the district treasurer as the school district pays the cafeteria worker direct. The number of cafeteria workers in each case shall be determined by the cafeteria director.

Banquets shall be prepared and served only by the school cafeteria staff under the direction of the cafeteria manager.

The reimbursement rate for cafeteria workers are available at the office.

No kitchen equipment may be used except by the cafeteria personnel.

Smoking is not allowed in the cafeteria area except by special arrangements with the cafeteria manager and on occasions when ash trays are provided. (Never during school hours.)

School Notes

Two elementary teachers were engaged for the school year 1959-1960 as follows: Miss Barbara E. Finley of Port Jervis for a fifth grade at the Main Street building; Miss Dorothy R. Hermann of Lynbrook for a third grade at the Mount Marion building.

The Board of Education authorized the participation of a freshman-sophomore group in debate at Webster, N. Y. on March 15 under the direction of Malcolm A. Bump, director of debate.

The attendance of Mrs. Elinor Lente, head of the language department of Saugerties High School was authorized at North-East Conference on Languages at Washington, D. C. on April 17-19.

A meeting of the voters of the former Mount Marion District at an early date was approved by the board for determining the disposal of the old one-room school building at that location.

According to reports in the papers we have far too many divorces. Too many women who

Divorces have become so common that the really smart folks are staying married in order to be different. Lots of the old folks are moving to Reno to be near the children. As the old-timer said to the newly married couple, "Cheer up! Divorce is yet to come!"

Matter of FACT

From the time of the discovery of America to the end of 1944, the world produced about 1,538,000,000 ounces of gold—the equivalent of 61,000 short tons. This quantity of metal would make a cube 45 feet on each side. About one-half of this gold is now being held by the United States Treasury.

Kingston High School Decisions Liberty Quintet, 47-41

Onteora Wins, 64-60; Saugerties Bows to Beacon Cagers

SOCIAL CLIMBER—When Cardinal Manager Solly Hemus wanted to talk with Dick Ricketts, his 6-6 rookie pitcher, a step-ladder seemed best. Ricketts is a former National Basketball Association star now trying to impress Hemus and company at St. Petersburg, Fla.

Indians Top Marlboro Five In Overtime

Onteora's UCAL champions were forced into an overtime session by a fired up Marlboro quintet last night at the Boiceville court before finally beating the visitors, 64-60, to finish the league season with an unbeaten mark. The Indians, who won their second straight championship, defeated ten straight opponents in circuit competition.

The final UCAL standings:

Team	W	L
Onteora	10	0
Wallkill	7	3
Marlboro	5	5
Rondout Valley	4	6
Highland	4	6
New Paltz	0	10

Marlboro played the home side on even terms during the regulation tilt and then lost out on foul shots in the overtime. After Tom McCrosson and Sam Mandia of the losers had exchanged baskets in the extra stanza, Eddie Caruso made a foul shot to shove the Indians ahead. Then Terry Grant led the game by sinking three successive charity throws, the last two seconds before the final buzzer.

Bruce Stars
Onteora, which will face the second place DUSO league team in the sectional tournament next week, was led by Bruce Weidenspieler. Big Bruce, nearing the end of a glorious high school career, had nine baskets and three foul shots for 21 points. McCrosson chipped in with 16 and Grant added 10. Mandia played a brilliant contest for the losers and made 26 points. Brian White had 16.

Onteora won a thrilling jayvee contest, 55-54, by rallying from a seven point deficit with only 35 seconds to play. Ken Bartsch was the hero. He made the final five points including a foul shot two seconds from the buzzer. Bartsch finished with 18 points for the Onteora juniors.

Esopus Legion Little League Adds Fifth Team for 1959

Expansion of the Esopus American Legion Little League from a four to a five-team circuit in 1959 was announced today by Basil (Bud) Potter, secretary.

Tryouts will be held March 21 and Potter said plans are being formulated for a new league park. The league has operated at Ross Park, Port Ewen. League games starting May 9 will be played Monday through Thursday of each week during the season.

League managers include Don Boss, Joe Pecora, Jack Woods, John Lancer and Walt Schussler with Hank Jordan, Bill Boss, Bob Shelighner, Howard Galbreth, Walt Bigler and Dennis Ahern serving as coaches.

Other league officers, headed by Chet Barth, president, include Ed McBroom, treasurer; Ken Bonville, vice-president, and Milton Tsitsersa, player agent.

Poughkeepsie Tops Fallsburgh, 75-54

Thirteen players saw action and ten of them scored as Poughkeepsie High school trounced winless Fallsburgh, 75-54, last night at the PHS gym. The Pioneers are now 10-5 in the league and have to beat Port Jervis tonight to clinch a berth in the sectional tournament. If the club loses, it will play with Kingston for the spot.

Bob Boschen led Sam J. Kalloch's cagers against the Comets with 21 points. Dick DePew had 14 and Herb Boschen and Jim Gordon made 10 each. The Comets were led by Bob Novick with 20 points and all-DUSO candidate Bob Kunis with 17.

Poughkeepsie led at the quarters, 16-6, 41-18 and 64-37. Reverses saw action most of the second half.

Sawyers Drop From DCSL Race With 83-60 Loss

The bubble burst last night for Saugerties High School.

With a chance to move into a three-way tie for first place in the DCSL scramble, the Sawyers were trounced, 83-60, at Beacon. Picked to finish near the bottom of the circuit, Buddy Smith's cagers stayed in the thick of the race until the bitter end. They can't finish below third, a big improvement over last season when the Sawyers ended in the cellar.

Wappingers beat Roosevelt, 65-51, last night and will play off for the title tonight against Arlington at the Roosevelt gym. Both clubs finished with 6-2 records in the league. The Falls five beat Arlington twice during the regular season and will be favored tonight to annex laurels.

Beacon had hot hands in the last period last night against Saugerties as they sent 29 points through the cords. Until then it was anybody's contest. Dick Phelps and Bill Burke were the culprits. Phelps had 27 markers in a standout performance while Burke was close behind with 24.

Bob Wolven collected 17 points, Barry W. had 13 and Bill Eckhoff 10 for the losers. Saugerties finished the regular season with a 12-6 mark and will be a tough club to beat next season with almost the entire team back intact. After the contest, Barry Wolven and Mike Cowley were elected honorary co-captains of the club for the past season.

McMullin Heads Golf Tournament

BATON ROUGE, La. (AP) — John McMullin, a crew-cut kid of 23, matched his two-stroke lead against a tough, veteran field today in the second round of the \$15,000 Baton Rouge Open Golf Tournament.

The Fair Oaks, Calif., golfer, finished seven strokes under par Friday with a 65.

This was two strokes better than Arnold Palmer, Ligonir, Pa., and Billy Maxwell, Odessa, Tex.

Bunched at 68 were Bob Goolby, Belleville, Ill.; Paul Harney, Worcester, Mass., and Mike Souchak, Grossingers, N.Y., while Dave Thomas, London, England, and Bert Weaver, Beaumont, Tex., each had 69.

Although 23 players registered better than par 72 over the rain-soaked, 6,450-yard Baton Rouge Country Club course, it was McMullin who really took it apart.

Dover Plains Wins Dutchess County Small School Title

Dover Plains put the basketball in a "deep freeze" last night at the Wappingers High School court and the team defeated Pine Plains, 23-19, to capture the Dutchess County small school basketball championship.

The Dover dribblers led at the quarters, 4-2, 9-7 and 16-11. They shot only when one was necessary. Fine plains was heavily favored but was never ahead in this one.

Country Club course, it was McMullin who really took it apart.

The home side trailed, 25-24, at intermission. It took the lead early in the second half and held on the rest of the way despite several threatening gestures by the losers.

George Parks led Drew with 21 points. Freshman Artie Gribbins continued his good scoring for New Paltz by meshing 15 markers. Tony Gamboli aided with 12.

The Hawks are scheduled to meet the New York Maritime academy today. They return home Saturday night for an engagement with Drew.

The Indians played a semi-possession game and worked the ball in for the good shots. It worked early in the game and the visitors had a 10-4 lead with four minutes gone in the first quarter. In fact, Kingston led only twice in the first half. A basket by Kelly put his club ahead, 19-18, and two foul shots by Williams following a jumper by Tom Lane made it 21-20.

However, a long set shot by Norm Kinne gave the Indians a 22-21 margin at intermission time.

Kelly Gets Hot

Kelly gave a spectacular shooting exhibition in the third period with four long buckets. They were the only deuces scored by KHS in the period and Liberty led, 33-31, starting the final eight minutes.

Armstrong fed Kelly underneath the first few seconds of the fourth quarter and John knotted the score. Then Harder hit with his two buckets and Kelly followed with a jumper to make it 39-33 in favor of Kingston with 5:34 left to play. The Indians came to within four points on two occasions after that but they couldn't make the big basket.

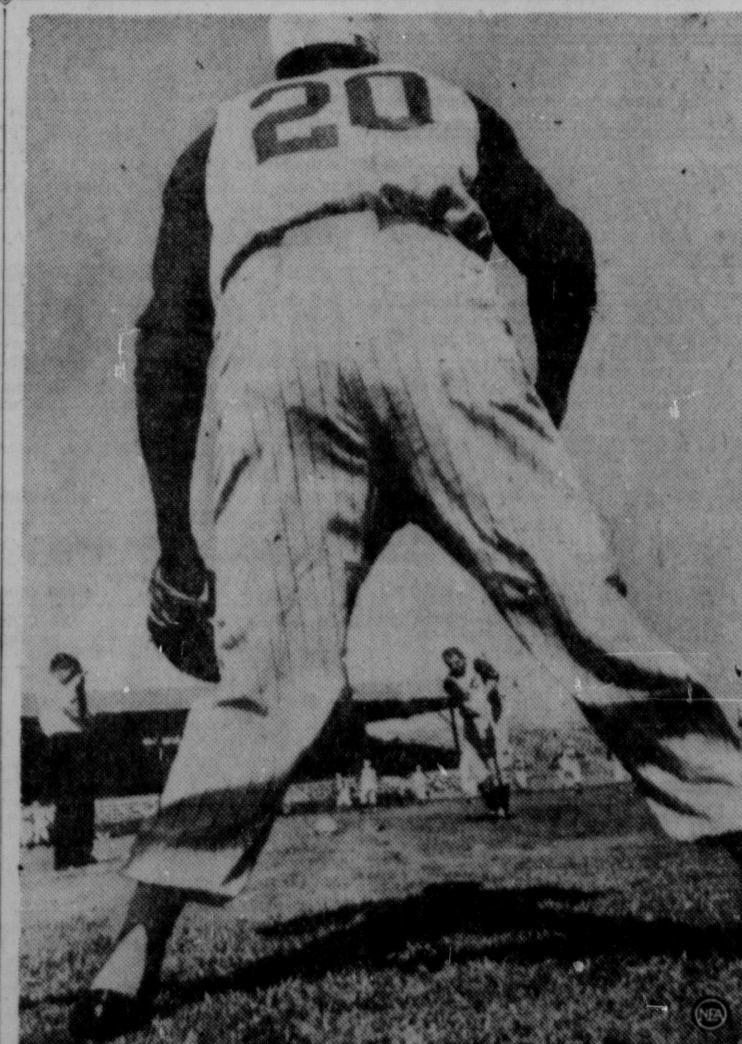

Lane led Liberty from the floor with 14 points. Gerow was held to 12 by a tight KHS zone defense and the rugged board work of Armstrong, Harder and Pratt. It was strictly a good team effort all the way and after it was over, the players were as happy as if they had won the DUSO league championship. After the recent tough losses, this one was due.

Indians Top Marlboro Five In Overtime

Onteora's UCAL champions were forced into an overtime session by a fired up Marlboro quintet last night at the Boiceville court before finally beating the visitors, 64-60, to finish the league season with an unbeaten mark. The Indians, who won their second straight championship, defeated ten straight opponents in circuit competition.

Marlboro played the home side on even terms during the regulation tilt and then lost out on four shots in the overtime. After Tom McCrosson and Sam Mandia of the losers had exchanged baskets in the extra stanza, Eddie Caruso made a foul shot to shove the Indians ahead. Then Terry Grant iced the game by sinking three successive charity throws, the last two seconds before the final buzzer.

Keeps Playoff Hopes Alive With Victory

BY ED PALLADINO Freeman Sports Staff

Walter "Red" Harder threw in three pivotal baskets in the last quarter last night at the Kate Walton field house and the happy Kingston High school teammates avenged an early season shellacking by beating the Liberty Indians, 47-41, in a humdrum before more than 800 fans.

The satisfying win by Kingston gives the club a chance of playing in the sectional tournament if Poughkeepsie High school loses at Port Jervis tonight, then the Pioneers and Maroons will have a playoff contest Monday night at a neutral court. The winner of that fracas will play at Clarkstown on Wednesday against Nyack of the Rockland County league.

The standings:

Team	Won	Lost
Newburgh	13	2
Poughkeepsie	10	5
Liberty	10	5
Kingston	10	6
Port Jervis	8	6
Monticello	8	7
Middletown	6	10
Ellenville	3	12
Fallsburgh	0	15

Celtics Set Records In 73-139 Win Over Minneapolis

BOSTON (AP)—Boston 173, Minneapolis 139 and records galore. In the most prolific scoring exhibition in the 13-year history of the NBA, Boston's Eastern division champions rewrote the record book Friday at Boston Garden. Even the losers got their share of marks.

Boston bettered the record for most points in a game, in one half (90) and in one quarter (52) without the services of its great center, Bill Russell.

St. Louis, holder of the previous single game point mark of 146, whipped Syracuse in the only other league test, 128-113, as Bob Pettit hit for 33 points at home.

Cousy Sets Mark

The Celtics' Bob Cousy had a record 28 assists, Richie Guerin of New York had set the old standard of 21 earlier this season. Cousy also collected 31 points to follow Tommy Heinsohn's 43. Bill Sharman showed 29 points for 29 minutes.

Lost in the maze of records were 14 points and 11 rebounds by basketball spring training fugitive Gene Conley who swished hook shots with both hands. K. C. Jones' six field goals for six tries and Jim Loscutt's first half defensive job on Lakers' rookie Elgin Baylor (two field goals).

Boston tried 143 field goals, made 72. Both were records. It was a gaudy 50.3 per cent.

The teams together averaged 6 1/2 points a minute. Their combined 312 points bettered the previous mark of 282 by St. Louis and Syracuse. They also combined for most points in a half (165) and in one quarter (96).

Minneapolis had to console itself with the fact that no losing team ever scored so many points.

Costly Defrost

MILWAUKEE (AP)—While he made his own breakfast Walter Ricker noticed that the motor of his 15-year-old refrigerator was not operating. The milk was warm and the ice cubes were melted. Arriving at work, he ordered a new machine sent out and phoned his wife to tell her the news. "I defrosted yesterday," she said, "and I forgot to plug in the cord."

England abolished its "window tax" in 1851.

Bomb Threat Holds Up Plane 25 Minutes

NEW YORK (AP) — For the last two days an anonymous caller has telephoned a bomb threat to the American Airlines office in Buffalo.

The voice sounded like that of a teen-ager.

Friday, when a reservations clerk was told "You're going to have a bomb in the 5:30 plane," a Buffalo-bound airliner was held at New York's LaGuardia airport and searched. It was the only plane due into Buffalo about 5:30 p. m.

The plane was held up 25 minutes. Nothing unusual was found aboard.

U. S. Publisher Dies

PARIS (AP) — Ralph Beaver Strassburger, American publisher and racehorse owner and breeder, died Thursday at his home here after a long period of fading health. He would have been 76 next month.

Publisher of the Times Herald in Norristown, Pa., where he was born, Strassburger first acquired property in France 35 years ago and has lived here periodically since then.

Strassburger's stud farm "Haras des Monceaux" is one of the best and most beautiful on the continent.

Dream Gets Him Jail

LOS ANGELES (AP) — He was walking in his sleep, Clyde said. And he was dreaming. Dreaming that the house he was entering was his grandpa's, and a meal of fried chicken and cookies awaited him.

It naturally came as a great surprise, Clyde said, when a woman's scream awakened him and a policeman arrested him on suspicion of burglary.

A judge listened kindly Friday and then sentenced Clyde McCally, 21, to 100 days in jail on a charge of trespassing.

SEATO Delegates Arrive

BANGKOK, Thailand (AP) — Delegates began arriving today for a Southeast Asia Treaty Organization air support exercise in Thailand March 2-8.

Six of the eight SEATO member nations will have air units in the exercise. They are Australia, France, New Zealand, the United Kingdom, the United States and Thailand.

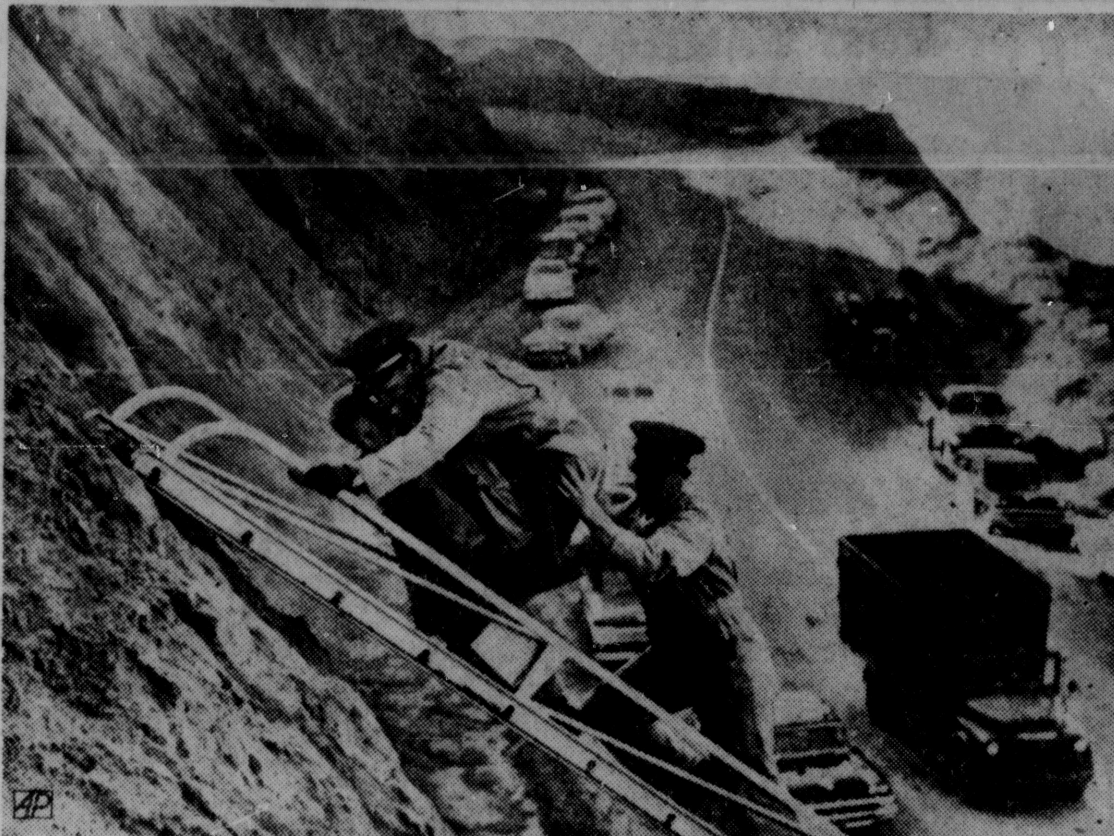

Army paratroops from Thailand, France and the United States also will take part. SEATO members not actively participating are Pakistan and the Philippines.

Stamps to Honor Pope

VATICAN CITY (AP) — The Vatican announced today that the first series of stamps bearing the image of Pope John XXIII will be issued April 2. The series will include four valuations of stamps.

Cornell Foreman Killed

ITHACA, N. Y. (AP) — Robert W. Watt, 31, a farm foreman at the Cornell University agricultural college, was killed early today when his automobile struck a tree at this city's outskirts.

WANDERING TOTS RESCUED FROM CLIFF

CLIFF — View from point on cliff bordering highway below at Daly City, Calif., gives idea of perilous spot where two wandering boys were found after they had been missing from home for 17 hours. Here a fireman inches down

an aerial ladder with one of the boys in his arms. The boys, Bobbie Smith, 6, and Gary Smith, 5, not related, had been objects of search by Coast Guard cutter and helicopter, bloodhounds and 100 firemen and police. (AP Wire-photo)

Castro Home Not Fired Upon, Shots Five Miles Away

HAVANA (AP) — Police rushing to the Cojimar district on a report that Prime Minister Fidel Castro's house was sprayed with bullets said today an investigation showed the shooting was five miles away.

Police Lt. Jesus Castiel said what happened was this:

"Five miles from where Dr. Castro lives two shots were heard.

At the place of shooting the person who fired the shots was not found. It appeared that the person did not have permission (to carry a gun) and fired for the purpose of frightening some thieves who were pushing against a door."

Premier Castro, who recently moved from the Havana Hilton Hotel to suburban Cojimar, was not in the area at the time. He was at a cabinet meeting in the Presidential Palace.

Earlier police reported that gunmen sprayed Castro's house from a speeding car shortly before midnight but no one was hurt.

These reports said that Police Chief Efigenio Almejida and Rene de los Santos, chief of investigations for the army, were taking part in the inquiry.

Lt. Jesus Castiel, who issued the later report, is aide to the police chief.

Bail Frees

lice who arrested his client as "storm troopers."

Travis said their trip to the house was "needless expense and waste," adding: "A phone call to me would have resulted in our traveling to the city of New York for arraignment at our own expense."

Barbara, Travis said, "is a young boy without a blemish on his record and always available."

The indictment against Barbara charges he lied when he said his father had been too ill to leave his apartment home since the gang meeting. It also accuses him of lying about how long he was home the day of the meeting, how many persons attended, and how many cars parked in the area.

State police took the names of those attending, but since there was no apparent illegal activity going on, the delegates could not be held.

Hope Still Held Two Physicians Are Alive

LEBANON, N. H. (AP) — Though an intensive search has yielded no clue to two Dartmouth College physicians who disappeared a week ago on a plane flight, fellow airmen still have hope they will be found alive.

"We have to assume they are still alive, although the hope is pretty thin," a Civil Air Patrol spokesman said. Ralph Miller, 60, and Robert E. Quinn, 32, were lost last Saturday on a 70-mile flight from Berlin, N. H., to Lebanon. They had flown to Berlin to treat a patient and were returning home.

The CAP moved its operations base Friday from Concord to Lebanon, about 10 miles from the Dartmouth campus, at Hanover.

About 30 planes flew over the snow-covered wilderness Friday.

Week's Business ..

to \$32,280,000 the week before and \$19,755,600 in the same week last year.

The long arm of the tax collector reached a bit farther into the pockets of U. S. businessmen this week. The United States Supreme Court handed down two decisions that increase the taxing powers of the states. One concerns business done within a state by out-of-state corporations, and the other concerns imported raw materials like lumber or iron ore. Under certain conditions, the tax collector, both are subject to state taxes.

A top psychologist took a look at the American consumer, and acknowledged that he still doesn't know what makes him tick. "Man as a consumer," said Prof. James J. Gibson of Cornell, "still eludes the theories of present day psychology. And the dullest customer can still laugh up his sleeve at the smartest psychologist who pretends to control his buying behavior."

Bandits Get \$655 In Bus Holdup

RUTHERFORD, N.J. (AP) — Two bandits pulled an Eastern version of the old Wild West stagecoach holdup Friday. They collected \$655 at gunpoint from 62 people on a commuter bus from New York.

The pair posed as passengers. Wh. 1 the bus emerged from the Lincoln Tunnel under the Hudson River, one of them sitting at the front told bus driver Julius Nagy: "There's going to be a holdup."

As the bus rolled along on Rt. 3, the other bandit moved from the rear with a brown duffle bag, taking up the collection among the passengers, some of them standing in the aisle.

"He skipped some of the people in the excitement, I guess because of the standees," Nagy said.

None of the riders spoke. None moved, except to reach for wallet or purse. It was over in 10 minutes.

The men alighted at Wheaton Ave. here and strolled leisurely away as the bus disappeared. There were no service stations handy where Nagy could phone police, so he drove the bus to the De Camp Bus Co. garage in Clifton, two miles away.

Actress to Resume Work

HOLLYWOOD (AP) — Actress Audrey Hepburn, who fractured two vertebrae when thrown from a horse last month, flies back to Durango, Mexico, today.

She will resume work on "The Unforgiven" after a week's rest here.

Her husband, Mel Ferrer, is accompanying her on the chartered hospital plane.

CHAIN SMOKER — British Prime Minister Harold Macmillan, whose current Soviet visit to break the diplomatic ice appears stymied by Premier Khrushchev's anti-western stand, lights one cigarette from another at luncheon during his visit to the Soviet nuclear establishment at Dubna. Macmillan went on to visit Klev, unaccompanied by Khrushchev although the Red leader had been scheduled to go along the tour. (AP Photo by radio from London)

Church Crosses Smashed

NORTH CRAY, England (AP)

—Police today were investigating the mystery of the 10 shattered churchyard crosses — smashed, villagers say, by devil-worshippers.

The crosses were smashed a few days before this week's full moon in the Churchyard of St. James in this Kent village.

Only the crosses were desecrated — other headstones were not touched.

Police are also probing reports of unearthly screams and howls late at night in the nearby woods.

"The possibility of witchcraft or devil worship cannot be ruled out," declared the rector, the Rev. R. J. Shaw-Hamilton.

\$4,661 Collected In Underpayments For Area Workers

Over \$920,000 in minimum wage underpayments — \$4,661 in Ulster County — was collected by the State Department of Labor during 1958, Industrial Commissioner M. P. Catherwood announced today.

A total of \$920,828, collected from 9,729 establishments throughout the state, was distributed by the Department's Division of Industrial Relations among the 24,352 workers to whom the money was due.

In Ulster County, a total of \$4,661 was collected from 43 establishments for 153 workers.

These collections are part of the regular enforcement activities of the department in connection with the wage orders covering 10 industries throughout the state. When wage payments are found to be lower than the standard provided in the appropriate order, the department arranges to collect from the responsible employer the difference between what the workers received and the amount due them under the wage order. This underpayment is then turned over to the worker as wages legally due.

Tri-State Dairy ..

no indication of the number.

The Guild was launched at Balcony, N. J., on March 15, 1956 by the Rev. John Dorney, Congregational church minister. He eventually stepped out of the picture and others carried on the leadership.

One goal of the guild was to obtain a price of \$6 per hundred-weight for milk produced by the dairymen.

While a number of dairymen took part in the two strikes and withheld their milk from markets, the majority of dairymen in the three-state area did not. This led to angry clashes and violence, especially during the first strike in February 1957.

Must Pay Bride, 15

SANTA MONICA, Calif. (AP) — A child bride of 15 has won all-money on her attorney's argument that she is "too young to work."

Judge Allen Lynch ordered 24-year-old Fred Myers of Venice to pay \$10 a week support for his wife, Darlene.

Mrs. Myers, suing for divorce, said they separated last Sept. 25 less than three months after they married. She was 14 at the time of their marriage.

Reds Send Gifts

LONDON (AP) — The Soviet government has sent gifts to U.S. Navy men stationed at Newfoundland who looked after Soviet Dep. Premier Anastas I. Mikoyan. His plane made a forced landing there last month as he was returning from his U.S. visit.

The broadcast did not say what the gifts were.

Extrovert Alcoholics

COLONIA, N. J. (AP) — Dr. Cyril M. Franks says he thinks that alcoholism is most likely to occur among extroverts — happy, outgoing individuals. Franks, who has received a \$25,000 grant to study alcoholism in the United States, feels the situation is least likely to occur in introverts — quiet people who prefer to remain by themselves to read or to listen to music.

LEAVES COURTROOM — Frank Duncan sits alone after leaving Ventura, Calif., courtroom where his mother, Mrs. Elizabeth Duncan, is being tried for the killing of his wife. He told newsmen he couldn't stand to listen to testimony of another defendant, Luis Moya, who described the death of Mrs. Olga Duncan. Two men may the elder Mrs. Duncan hired them for the killing. Bomb Threat Holds Up Plane 25 Minutes

NEW YORK (AP) — For the last two days an anonymous caller has telephoned a bomb threat to the American Airlines office in Buffalo.

The voice sounded like that of a teen-ager.

Friday, when a reservations clerk was told "You're going to have a bomb in the 5:30 plane," a Buffalo-bound airliner was held at New York's LaGuardia airport and searched. It was the only plane due into Buffalo about 5:30 p. m.

The plane was held up 25 minutes. Nothing unusual was found aboard.

U. S. Publisher Dies

PARIS (AP) — Ralph Beaver Strassburger, American publisher and racehorse owner and breeder, died Thursday at his home here after a long period of fading health. He would have been 76 next month.

Publisher of the Times Herald in Norristown, Pa., where he was born, Strassburger first acquired property in France 35 years ago and has lived here periodically since then.

Strassburger's stud farm "Haras des Monceaux" is one of the best and most beautiful on the continent.

Dream Gets Him Jail

LOS ANGELES (AP)—He was walking in his sleep, Clyde said. And he was dreaming. Dreaming that the house he was entering was his grandma's, and a meal of fried chicken and cookies awaited him.

It naturally came as a great surprise, Clyde said, when a woman's scream awakened him and a policeman arrested him on suspicion of burglary.

A judge listened kindly Friday and then sentenced Clyde McCull, 21, to 100 days in jail on a charge of trespassing.

SEATO Delegates Arrive

BANGKOK, Thailand (AP) — Delegates began arriving today for a Southeast Asia Treaty Organization air support exercise in Thailand March 2-8.

Six of the eight SEATO member nations will have air units in the exercise. They are Australia, France, New Zealand, the United Kingdom, the United States and Thailand.

Army paratroops from Thailand, France and the United States also will take part.

SEATO members not actively participating are Pakistan and the Philippines.

Stamps to Honor Pope

VATICAN CITY (AP)—The Vatican announced today that the first series of stamps bearing the image of Pope John XXIII will be issued April 2. The series will include four valuations of stamps.

Cornell Foreman Killed

ITHACA, N. Y. (AP) — Robert W. Watt, 31, a farm foreman at the Cornell University agricultural college, was killed early today when his automobile struck a tree at this city's outskirts.

Castro Home Not Fired Upon, Shots Five Miles Away

HAVANA (AP)—Police rushing to the Cojimar district on a report that Prime Minister Fidel Castro's house was sprayed with bullets said today an investigation showed the shooting was five miles away.

Police Lt. Jesus Castiel said what happened was this:

"Five miles from where Dr. Castro lives two shots were heard.

At the place of shooting the person who fired the shots was not found. It appeared that the person did not have permission to carry a gun and fired for the purpose of frightening some thieves who were pushing against a door."

Premier Castro, who recently moved from the Havana Hilton Hotel to suburban Cojimar, was not in the area at the time. He was at a cabinet meeting in the Presidential Palace.

Earlier police reported that gunmen sprayed Castro's house from a speeding car shortly before midnight but no one was hurt.

These reports said that Police Chief Efigenio Almeida and Rene de los Santos, chief of investigations for the army, were taking part in the inquiry.

Lt. Jesus Castiel, who issued the later report, is aide to the police chief.

lice who arrested his client as "storm troopers."

Travis said their trip to the house was "needless expense and waste," adding: "A phone call to me would have resulted in our traveling to the city of New York for arraignment at our own expense."

Barbara, Travis said, "is a young boy without a blemish on his record and always available."

The indictment against Barbara charges he lied when he said his father had been too ill to leave his Apalachin home since the gang meeting. It also accuses him of lying about how long he was home the day of the meeting, how many persons attended, and how many cars parked in the area.

State police took the names of those attending, but since there was no apparent illegal activity going on, the delegates could not be held.

Hope Still Held Two Physicians Are Alive

LEBANON, N. H. (AP)—Though an intensive search has yielded no clue to two Dartmouth College physicians who disappeared a week ago on a plane flight, fellow aviators still have hope they will be found alive.

"We have to assume they are still alive, although the hope is pretty thin," a Civil Air Patrol spokesman said.

The doctors, Ralph Miller, 60, and Robert E. Quinn, 32, were lost last Saturday on a 70-mile flight from Berlin, N. H., to Lebanon.

They had flown to Berlin to treat a patient and were returning home.

The CAP moved its operations base Friday from Concord to Lebanon, about 10 miles from the Dartmouth campus at Hanover.

About 30 planes flew over the snow-covered wilderness Friday.

Week's Business...

To \$32,280,000 the week before and \$19,755,600 in the same week last year.

The long arm of the tax collector reached a bit further into the pockets of U. S. businessmen this week. The United States Supreme Court handed down two decisions that increase the taxing powers of the states.

One concerns business done within a state by out-of-state corporations, and the other concerns imported raw materials like lumber or iron ore. Under certain circumstances, said the court, both are subject to state taxes.

A top psychologist took a look at the American consumer, and acknowledged that he still doesn't know what makes him tick.

"Man as a consumer," said Prof. James J. Gibson of Cornell, "still eludes the theories of present day psychology. And the dullest customer can still laugh up his sleeve at the smartest psychologist who pretends to control his buying behavior."

Business in Brief

Briefly over the business scene: Tax troubles plague the life insurance industry. Prudential Insurance Co. of America says pending legislation would boost its 1958 tax bill, currently estimated at 35 million dollars, to 78 millions.

The U. S. Navy's ships' stores office, headquarters for a worldwide chain of 175 government-subsidized retail stores for Navy personnel, has installed a Univac electronic brain to keep tabs on its multi-million-dollar merchandising operation.

The American Bankers Assn. says commercial banks will spend 143 million dollars on advertising this year.

Actress to Resume Work

HOLLYWOOD (AP) — Actress Audrey Hepburn, who fractured two vertebrae when thrown from a horse last month, flies back to Durango, Mexico, today.

She will resume work on "The Unforgiven" after a week's rest there.

Her husband, Mel Ferrer, is accompanying her on the chartered hospital plane.

Strike Against Pan American Air Service Averted

NEW YORK (AP) — A federal mediator announced today that a threatened strike Monday by 8,000 employees of Pan American World Airways has been averted.

Agreement "in principle" was reached after an all-night negotiating session, according to Francis A. O'Neill Jr., a member of the National Mediation Board.

He said the Transport Workers Union negotiating committee will have to vote on the agreement, which will then go before the membership for ratification. No date was set for the ratification vote.

O'Neill said the agreement concerns "wages, rules and working conditions," but would not specify further. A shorter work week was a major object of the union, but there was no indication whether or not the agreement provided for a shorter work week.

The union, which represents ground and air personnel such as stewards, stewardesses, mechanics and pursers, had made plans to strike at midnight Monday.

The union maintained a shorter work week was needed to offset what it predicts will be a decrease in employment because of the replacement of conventional planes by jets. The workers involved now work either a 37½ or a 40-hour week.

The jets carry more people faster, requiring fewer aircraft, and smaller inspection and maintenance crews. The union held.

Bandits Get \$655 In Bus Holdup

RUTHERFORD, N.J. (AP) — Two bandits pulled an Eastern version of the old Wild West stagecoach holdup Friday. They collected \$655 at gunpoint from 62 people on a commuter bus from New York.

The pair posed as passengers. When the bus emerged from the Lincoln Tunnel under the Hudson River, one of them sitting at the front told bus driver Julius Nagy: "There's going to be a holdup."

"As the bus rolled along on Rt. 3, the other bandit moved from the rear with a brown duffle bag, taking up the collection among the passengers, some of them standing in the aisle.

"He skipped some of the people in the excitement, I guess because of the standees," Nagy said.

None of the riders spoke. None moved, except to reach for wallet or purse. It was over in 10 minutes.

The men alighted at Wheaton Ave. here and strolled leisurely away as the bus disappeared.

There were no service stations handy where Nagy could phone police, so he drove the bus to the De Camp Bus Co. garage in Clifton, two miles away.

Church Crosses Smashed

NORTH CRAY, England (AP)

—Police today were investigating the mystery of the 10 shattered churchyard crosses — smashed, villagers say, by devil-worshippers.

The crosses were smashed a few days before this week's full moon in the Churchyard of St. James in this Kent village.

Only the crosses were desecrated—other headstones were not touched.

Police are also probing reports of unearthly screams and howls late at night in the nearby woods.

"The possibility of witchcraft or devil worship cannot be ruled out," declared the rector, the Rev. R. J. Shaw-Hamilton.

\$4,661 Collected In Underpayments For Area Workers

Over \$920,000 in minimum wage underpayments—\$4,661 in Ulster County—was collected by the State Department of Labor during 1958, Industrial Commissioner M. P. Catherwood announced today.

A total of \$920,828, collected from 9,729 establishments throughout the state, was distributed by the Department's Division of Industrial Relations among the 24,352 workers to whom the money was due.

In Ulster County, a total of \$4,661 was collected from 43 establishments for 153 workers.

These collections are part of the regular enforcement activities of the department in connection with the wage orders covering 10 industries throughout the state. When wage payments are found to be lower than the standard provided in the appropriate order, the department arranges to collect from the responsible employer the difference between what the workers received and the amount due them under the wage order. This underpayment is then turned over to the worker as wages legally due.

Tri-State Dairy...

no indication of the number.

The Guild was launched at Baleville, N. J., on March 15, 1956 by the Rev. John Dornier, Congregational church minister. He eventually stepped out of the picture and others carried on the leadership.

One goal of the guild was to obtain a price of \$6 per hundredweight for milk produced by the dairymen.

While a number of dairymen took part in the two strikes and withheld their milk from markets, the majority of dairymen in the three-state area did not. This led to angry clashes and violence, especially during the first strike in February 1957.

Must Pay Bride, 15

SANTA MONICA, Calif. (AP) — A child bride of 15 has won all-money on her attorney's argument that she is "too young to work."

Judge Allen Lynch ordered 24-year-old Fred Myers of Venice to pay \$10 a week support for his wife, Darlene.

Mrs. Myers, suing for divorce, said they separated last Sept. 25 less than three months after they married. She was 14 at the time of their marriage.

Reds Send Gifts

LONDON (AP) — The Soviet government has sent gifts to U.S. Navy men stationed at Newfoundland who looked after Soviet Dep. Premier Anastas I. Mikoyan. His plane made a forced landing there last month as he was returning from his U.S. visit.

The broadcast did not say what the gifts were.

Extrovert Alcoholics

COLONIA, N. J. (AP)—Dr. Cyril M. Franks says he thinks that alcoholism is most likely to occur among extroverts—happy, outgoing individuals. Franks, who has received a \$25,000 grant to study alcoholism in the United States, feels the situation is least likely to occur in introverts—quiet people who prefer to remain by themselves to read or to listen to music.

LEAVES COURTROOM—Frank Duncan sits alone after leaving Ventura, Calif., courtroom where his mother, Mrs. Elizabeth Duncan, is being tried for the killing of his wife. He told newsmen he couldn't stand to listen to testimony of another defendant, Luis Moya, who described the death of Mrs. Olga Duncan. Two men were the elder Mrs. Duncan hired them for the killing.
